PUBLIC RIGHTS OF WAY COMMITTEE

Thursday, 6th July, 2017

A meeting of the Public Rights of Way Committee is to be held on the above date at 2.15 pm in the Committee Suite - County Hall to consider the following matters.

P NORREY
Chief Executive

A G E N D A

PART I - OPEN COMMITTEE

- 1 Apologies
- 2 Minutes
Minutes of the Committee meeting held on 2 March 2017, (previously circulated).
- 3 Items Requiring Urgent Attention
Items which in the opinion of the Chairman should be considered at the meeting as matters of urgency.
- 4 Devon Countryside Access Forum (Pages 1 - 10)
Draft Minutes of the meeting held on 27 April 2017 attached.

DEFINITIVE MAP REVIEWS

- 5 Parish Review: Definitive Map Review 1997-2017 - Parish of Burlescombe (Pages 11 - 14)
Report of the Acting Chief Officer for Highways, Infrastructure and Waste (HIW/17/48), attached.

Electoral Divisions(s): Willand & Uffculme

- 6 Parish Review: Definitive Map Review - Parish of Bittadon, with Marwood and West Down (Pages 15 - 34)
Report of the Acting Chief Officer for Highways, Infrastructure and Waste (HIW/17/49), attached.

Electoral Divisions(s): Combe Martin Rural
- 7 Parish Review: Definitive Map Review 2016-2017 - Parish of Bridgerule (Pages 35 - 36)
Report of the Acting Chief Officer for Highways, Infrastructure and Waste (HIW/50), attached.

Electoral Divisions(s): Holsworthy Rural
- 8 Parish Review: Definitive Map Review - Parish of Sparkwell (Pages 37 - 44)
Report of the Acting Chief Officer for Highways, Infrastructure and Waste (HIW/17/51), attached.

Electoral Divisions(s): Bickleigh & Wembury

MATTERS FOR INFORMATION

- 9 Public Inquiry, Informal Hearing and Written Representation Decisions; Directions and High Court Appeals (Pages 45 - 48)
Report of the Acting Chief Officer for Highways, Infrastructure and Waste (HIW/17/52), attached.

Electoral Divisions(s): Creedy, Taw & Mid Exe; Willand & Uffculme
- 10 Modification Orders (Pages 49 - 56)
Report of the Acting Chief Officer for Highways, Infrastructure and Waste (HIW/53), attached.

Electoral Divisions(s): Combe Martin Rural; Ilfracombe
- 11 Public Path Orders (Pages 57 - 70)
Report of the Acting Chief Officer for Highways, Infrastructure and Waste (HIW/17/54), attached.

Electoral Divisions(s): Bickleigh & Wembury; Bideford West & Hartland; Holsworthy Rural; Ilfracombe; Ipplepen & The Kerswells; Salcombe

PART II - ITEMS WHICH MAY BE TAKEN IN THE ABSENCE OF THE PRESS AND PUBLIC

Nil

Members are reminded that Part II Reports contain confidential information and should therefore be treated accordingly. They should not be disclosed or passed on to any other person(s). Members are also reminded of the need to dispose of such reports carefully and are therefore invited to return them to the Democratic Services Officer at the conclusion of the meeting for disposal.

Membership

Councillors P Sanders (Chairman), T Inch (Vice-Chair), J Brook, I Chubb, P Colthorpe, A Dewhirst, R Edgell, M Shaw and C Whitton

Declaration of Interests

Members are reminded that they must declare any interest they may have in any item to be considered at this meeting, prior to any discussion taking place on that item.

Access to Information

Any person wishing to inspect any minutes, reports or lists of background papers relating to any item on this agenda should contact Wendy Simpson on 01392 384383.

Agenda and minutes of the Committee are published on the Council's Website and can also be accessed via the Modern.Gov app, available from the usual stores..

Public Participation

Any member of the public resident in the administrative area of the County of Devon may make a presentation on any proposed public footpath order being considered by the Committee. Any request to make a presentation must be made to the Chief Executive's Directorate, County Hall, Exeter by 12 noon on the third working day before the relevant meeting. For further information please contact Wendy Simpson on 01392 384383.

Webcasting, Recording or Reporting of Meetings and Proceedings

The proceedings of this meeting may be recorded for broadcasting live on the internet via the 'Democracy Centre' on the County Council's website. The whole of the meeting may be broadcast apart from any confidential items which may need to be considered in the absence of the press and public. For more information go to: <http://www.devoncc.public-i.tv/core/>

In addition, anyone wishing to film part or all of the proceedings may do so unless the press and public are excluded for that part of the meeting or there is good reason not to do so, as directed by the Chairman. Any filming must be done as unobtrusively as possible from a single fixed position without the use of any additional lighting; focusing only on those actively participating in the meeting and having regard also to the wishes of any member of the public present who may not wish to be filmed. As a matter of courtesy, anyone wishing to film proceedings is asked to advise the Chairman or the Democratic Services Officer in attendance so that all those present may be made aware that is happening.

Members of the public may also use Facebook and Twitter or other forms of social media to report on proceedings at this meeting. An open, publicly available Wi-Fi network (i.e. DCC) is normally available for meetings held in the Committee Suite at County Hall. For information on Wi-Fi availability at other locations, please contact the Officer identified above.

Emergencies

In the event of the fire alarm sounding leave the building immediately by the nearest available exit, following the fire exit signs. If doors fail to unlock press the Green break glass next to the door. Do not stop to collect personal belongings, do not use the lifts, do not re-enter the building until told to do so.

Mobile Phones

Please switch off all mobile phones before entering the Committee Room or Council Chamber

If you need a copy of this Agenda and/or a Report in another format (e.g. large print, audio tape, Braille or other languages), please contact the Information Centre on 01392 380101 or email to: centre@devon.gov.uk or write to the Democratic and Scrutiny Secretariat at County Hall, Exeter, EX2 4QD.

Induction loop system available

NOTES FOR VISITORS

All visitors to County Hall, including visitors to the Committee Suite and the Coaver Club conference and meeting rooms are requested to report to Main Reception on arrival. If visitors have any specific requirements or needs they should contact County Hall reception on 01392 382504 beforehand. Further information about how to get here can be found at: <https://new.devon.gov.uk/help/visiting-county-hall/>. Please note that visitor car parking on campus is limited and space cannot be guaranteed. Where possible, we encourage visitors to travel to County Hall by other means.

SatNav – Postcode EX2 4QD

Walking and Cycling Facilities

County Hall is a pleasant twenty minute walk from Exeter City Centre. Exeter is also one of six National Cycle demonstration towns and has an excellent network of dedicated cycle routes – a map can be found at: <https://new.devon.gov.uk/travel/cycle/>. Cycle stands are outside County Hall Main Reception and Lucombe House

Access to County Hall and Public Transport Links

Bus Services K, J, T and S operate from the High Street to County Hall (Topsham Road). To return to the High Street use Services K, J, T and R. Local Services to and from Dawlish, Teignmouth, Newton Abbot, Exmouth, Plymouth and Torbay all stop in Barrack Road which is a 5 minute walk from County Hall. Park and Ride Services operate from Sowton, Marsh Barton and Honiton Road with bus services direct to the High Street.

The nearest mainline railway stations are Exeter Central (5 minutes from the High Street) and St David's and St Thomas's both of which have regular bus services to the High Street. Bus Service H (which runs from St David's Station to the High Street) continues and stops in Wonford Road (at the top of Matford Lane shown on the map) a 2/3 minute walk from County Hall, en route to the RD&E Hospital (approximately a 10 minutes walk from County Hall, through Gras Lawn on Barrack Road).

Car Sharing

Carsharing allows people to benefit from the convenience of the car, whilst alleviating the associated problems of congestion and pollution. For more information see: <https://liftshare.com/uk/community/devon>.

Car Parking and Security

There is a pay and display car park, exclusively for the use of visitors, entered via Topsham Road. Current charges are: Up to 30 minutes – free; 1 hour - £1.10; 2 hours - £2.20; 4 hours - £4.40; 8 hours - £7. Please note that County Hall reception staff are not able to provide change for the parking meters.

As indicated above, parking cannot be guaranteed and visitors should allow themselves enough time to find alternative parking if necessary. Public car parking can be found at the Cathedral Quay or Magdalen Road Car Parks (approx. 20 minutes walk). There are two disabled parking bays within the visitor car park. Additional disabled parking bays are available in the staff car park. These can be accessed via the intercom at the entrance barrier to the staff car park.

Fire/Emergency Instructions

In the event of a fire or other emergency please note the following instructions. If you discover a fire, immediately inform the nearest member of staff and/or operate the nearest fire alarm. On hearing a fire alarm leave the building by the nearest available exit. The County Hall Stewardesses will help direct you. Do not stop to collect personal belongings and do not use the lifts. Assemble either on the cobbled car parking area adjacent to the administrative buildings or in the car park behind Bellair, as shown on the site map above. Please remain at the assembly point until you receive further instructions. Do not re-enter the building without being told to do so.

First Aid

Contact Main Reception (extension 2504) for a trained first aider.

Minutes of the Forty-Seventh Public Meeting
of the Devon Countryside Access Forum
held at Devon Travel Academy, Westpoint, Clyst St Mary, Exeter EX5 1DJ
Thursday, 27 April 2017

Attendance

Forum members

Simon Clist
Chris Cole (Vice Chair)
John Daw
Gordon Guest
Jo Hooper
Chris Ingram

Linda Lee
Sue Pudduck
Mark Simpson
Sarah Slade (Chair)
Maggie Watson
Councillor Philip Sanders

Devon County Council officers and others present

Richard Andrews, Senior Adviser (Coastal Access), Natural England
Helen Clayton, Senior Manager, Public Rights of Way, DCC
Hilary Winter, Forum Officer, DCC

1. Introductions and welcome to new members

New members John Daw, Jo Hooper and Maggie Watson were welcomed.

2. Apologies

Apologies were received from Mark Bullock, Sean Comber and Andrew Cox. The resignations of Chris Britton and Ellie Wonnacott were noted. Appreciation was expressed to Chris Britton in his role as Vice Chair.

3. Declaration of interests

There were no declarations of interest.

4. Election of Chair and Vice Chair

Sarah Slade was elected as Chair, proposed by Mark Simpson and seconded by Sue Pudduck. Chris Cole was elected as Vice Chair, proposed by Chris Ingram and seconded by Linda Lee. An email from the retiring Chair, Laura Leigh, expressing thanks and best wishes for future meetings was read out.

The Devon Countryside Access Forum, is required, in accordance with Sections 94 and 95 of the Countryside and Rights of Way (CROW) Act 2000 (Local Access Forums), to advise on the improvement of public access to the countryside

5. Minutes of the Forty-Sixth meeting held on 26 January 2017

Minutes of the previous meeting were approved and signed.

6. Matters arising

6.1 Dog advice

The seasonal dog advice article had been circulated to the press. The article for the Daily Wag publication (East Devon) would be included in the forthcoming edition.

6.2 Correspondence log - Mid Devon

Clarification of glossary terms had been submitted to Mid Devon District Council.

6.3 Disability Access

The possibility of a conference or workshop on disability access would be investigated further.

Action: Forum Officer

7. Correspondence log

Attention was drawn to item 12. The Forum Officer had attended a workshop on dog walking but the proposed voluntary exclusion zone for the Exe Estuary, to protect bird feeding grounds, would cover all users, both land and water based. Gordon Guest had attended the Exe Estuary Winter Forum which had highlighted the decline in bird species on the estuary, a concern due to its international and national conservation designations. It was agreed the DCAF should respond to the forthcoming dog walking code, one of the codes being developed in association with the proposal, but send an initial advisory email focussing on dog fouling and the need for a consistent approach by the three councils, and to flag up the possible impact of dog displacement to other areas in Exmouth.

Action: Forum Officer to respond to the Exe Estuary Partnership.

8. DCAF member attendance at events/meetings

8.1 Disability access at Dawlish Warren. To note and approve letter. Feedback from visit on 13 April.

The letter was approved. The Senior Ranger at Dawlish Warren had invited the DCAF to discuss disability access and a site meeting had taken place attended by Simon Clist, Gordon Guest, Sarah Slade and the Forum Officer. Discussions took place about improving accessibility, particularly through the main access gate and a gate through to the sand dunes. Gates immediately beside the visitor centre through to the grazing area were more difficult to change. Members appreciated some of the difficulties raised by the Ranger, in particular gates being left open by members of the public. This led to ponies escaping through kissing gate systems unless additional diagonal wooden sections were put in place which restricted recreational access. It was agreed one gate could be kept open during part of the year as ponies only grazed during the autumn/winter. This was a sensible compromise. The

Ranger agreed to look at other changes and signposting to gates that were accessible. The nature reserve had extremely limited capital budgets for any improvement works and the scope for drawing in funds was discussed. It was suggested that TAP funding (town and parish funds) could be used, a source DCAF could highlight to other groups, or tourism money.

The availability of a funding pot for DCAF to allocate for improvement projects, as in some other counties, was raised. Match funding was also important.

Action: Forum Officer to draw up list of potential funding sources. Helen Clayton to take back request for a funding pot.

Attention was drawn to the availability of accessible gates, opened with a radar key. Chris Cole confirmed he had been involved in a development scheme in Pinhoe whereby developer money had been used to put in a radar gate.

8.2 Other meetings

Gordon Guest had attended the Exe Estuary Partnership Winter Forum meeting.

Laura Leigh, outgoing Chair, had attended a meeting of SW LAF Chairs and Vice Chairs to share good practice. Notes of the meeting would be sent to Sarah Slade.

Action: Forum Officer

9. Minutes of the Public Rights of Way Committee held on 2 March 2017

The minutes of the last Public Rights of Way Committee were noted. It was clarified that where an appeal is allowed in part, the Planning Inspector only directed the Authority to make a Modification Order for a section of a route and not the whole route.

10. Public Rights of Way update

Helen Clayton, DCC, provided information on current work.

a) Budleigh Salterton to Otterton

An improved gate at the White Bridge end was planned but had been delayed following storm repairs.

b) Lympstone

Remedial works were planned. Subsequent to the meeting it was confirmed these had been completed.

c) Budgets

These remained at the same level as 2016-17.

d) Wardens' work

Wardens were continuing with inspections and arranging vegetation cutting orders. Exeter was now stile free except for one and in Crediton and Shobrooke all stiles had been replaced by gates.

e) Multi-use

DCC had secured Access Fund money of £1.5m over three years to improve sustainable travel. The scheme aims to help people make informed choices on how they travel, encouraging more people to walk, cycle and use sustainable transport which provides health and environmental benefits. The Public Rights of Way team had been asked for advice on spending this fund and it had been decided parishes will be able to bid into funds. A steering group will allocate funding.

<https://www.devonnewscentre.info/funding-for-sustainable-travel-projects-in-devon/>

Action: Helen Clayton, DCC, to circulate information when available.

Following an internal DCC multi-use/recreational trail meeting it was confirmed the DCAF will be added to the planning consultation list as a standard consultee. The DCAF will not be involved at the pre-application consultation stage as its proceedings were in the public domain. Best practice was being established concerning design of structures to suit both landowners and disabled users and DCAF position statements would be included. It had been agreed an audit trail of decision making, particularly in terms of restrictive covenants, was important together with clarity and transparency around pre-application studies and audits.

Questions were raised about recent surfacing work on the Pegasus Trail. The new surface, extending for 1km, was seen as less suitable for horse-riders and impacted on cyclists and disability users too. The landscape impact in a rural area was greater. Helen Clayton confirmed that a price was being obtained to put a dust layer down. The trail was now a promoted route which influenced the standard. It was agreed the clarity of contracts was an important consideration.

Action: Helen Clayton, DCC, to feedback to the DCAF on this matter.

f) Definitive Map Review

A Modification Order to delete paths along the River Coly, made following an application by landowners, had not been confirmed by the Planning Inspectorate. The paths, added to the Definitive Map following an earlier decision, are therefore now formally recorded. Discussions will be taking place with landowners, in particular regarding the installation of a couple of large bridges. An engineer is looking at one existing bridge in stock to see if it is suitable. Putting the paths in place presented a funding issue as PROW capital funding for 2017-18 had already been allocated. Discussions are also taking place with the Ramblers.

A public inquiry at Pitt Farm, Hemyock and Culmstock had confirmed a Modification Order, with modifications made by the Inspector to add a footpath in Culmstock and a restricted byway in Hemyock.

A hearing had taken place in Sandford for a restricted byway and a decision was expected in due course.

Action: Helen Clayton would circulate a list of Public Inquiries/Hearings in case DCAF members wished to attend.

g) Public Rights of Way Committee

The next meeting was taking place on 6 July.

h) Deregulation Act

There was no timetable despite commitment to the process. The work in formulating the new regulations had been underestimated.

i) Minor roads

A discussion took place on the likely DCC downgrading of minor roads in terms of maintenance, not legal status. Some were likely to come across to Public Rights of Way for maintenance. It was understood proposals will be circulated to parishes. Concerns were raised about roads with partial closure or where damage could occur to cars. Diminution of safety standards could become an issue where minor roads became increasingly used for recreational access. The Public Rights of Way team was in discussions about the impact on its budget and the need for a proper handover of additional routes.

It was agreed the DCAF had a role in flagging up the shifting burden of cost to Public Rights of Way.

Action: Forum Officer to draft email to register the DCAF's interest in the process.

11. To note and approve responses to consultations or advice given and any feedback

11.1 List of Streets

The email to the Assistant County Solicitor was noted and approved. Helen Clayton, DCC, had subsequently had a meeting and it was agreed there was no reason why the List of Streets (highways maintainable at public expense) should not include Definitive Map information on public rights of way (the majority of which were also maintainable at public expense). There were some technical issues associated with migrating the information across and further talks would take place. As well as assisting with the Definitive Map review a complete List of Streets would help with planning search enquiries and internal matters. This proposal was welcomed.

Action: Helen Clayton, DCC, to progress and report back.

11.2 Revised draft Charging Schedule and Regulation 123 List consultation - North Devon Council

The response was noted and approved.

11.3 Revised draft Charging Schedule and Regulation 123 List consultation - Torridge District Council

The response was noted and approved.

11.4 Buckfastleigh Neighbourhood Plan

The response was noted and approved.

11.5 Greater Exeter Strategic Plan - Issues

The response was noted and approved.

12. Current consultations

12.1 Coastal access report - Kingswear to Lyme Regis

Richard Andrew, Senior Adviser Coastal Access (Devon and Cornwall) with Natural England gave a presentation on the Kingswear to Lyme Regis coastal access report.

The report was divided into nine chapters, each covering a section of the coast (68 miles in total).

Natural England had written to all landowners along the trail and in the coastal margin. There were 2000 landowners within the coastal area; 400 adjacent to spreading room and 200 with land on the trail or in the coastal margin.

The trail had not been walked and NE had looked at the current infrastructure and information from the SW Coast Path Association, Devon County Council, Torbay Council, the National Trust and other groups. There were no realignments from the existing SWCP route.

Specific alternative routes had been identified at Man Sands, to avoid times of flooding, and along the Exe Estuary trail when the ferry is not running.

Rollback identified areas where the coast can move back in negotiation with landowners when the trail erodes but the revised route would not need to go to the Secretary of State. The coastal margin is the area between the trail and the sea, and landward at discretion.

Natural England had used 25 and 50 year data from the Environment Agency and had been in discussions with authority wardens and rangers and others regarding particular issues. Along the coastal margin there is reduced liability for landowners, below that of trespass.

There will be restrictions on access by foot at Dawlish Warren due to conservation reasons. The proposal will mirror the voluntary exclusion zone being proposed at Dawlish for the Exe Estuary and will be reviewed after five years. The other exclusion is on the Otter estuary on health and safety grounds due to mud flats and salt marsh.

The report, published on 30 March, has an eight week consultation period. Anyone can make representation on the statutory form and these will be sent to Defra. Those landowners affected can object and these forms will go to Defra and the Planning Inspectorate to determine whether the objection is valid. Once due process has been followed, the Secretary of State can approve with or without changes.

Where an area needs rollback the trail will move slowly back as there is erosion. Comment was made that from the establishment and maintenance cost perspective it would be best to do it once, on a proper basis. Mr Andrews replied that if a new

gate is needed it may go back further. No decisions are made on where a future route will go; it is a principle rather than a line on a map.

Where there are multiple representations about a particular site, it was confirmed that these will be summarised and a statement made about the number of representations.

It was suggested that NE specify the Lower Ferry in Dartmouth in the report, rather than stating ferry.

It was suggested that accessibility could be improved. Many coastal car parks include earth bunds which deter access. Sections of uneven ground could still be suitable for scooters and wheelchairs. It was confirmed that discussions had taken place with local people, rangers and local authorities. Funding was limited. The DCAF was advised to include specific proposals for improvements in its comments on the next stages.

The poor ferry access, via steps, at Starcross was mentioned. The DCAF was advised to take this up with the access authority.

The Forum noted that the budget for this stretch was just under £20,000 for all work which appeared insignificant. It was confirmed that as this route followed the SWCP costs were minimal and were either for new gates or interpretation boards.

It was agreed it would be complicated and confusing if there was no alignment between mandatory and voluntary exclusions at Dawlish Warren, put in place under coastal access and other legislation by Natural England and Teignbridge District Council.

It was noted that there was no roll-back at Ladram Bay and elsewhere along the East Devon coast. This would be a matter to put in the representations.

It was clarified that where the existing coast path is on a permissive route this would become the England Coastpath and a landowner could not withdraw the permissive route.

Natural England would discuss maintenance with the local authorities, particularly on new routes.

In terms of progress elsewhere, Minehead to Combe Martin would be published on 15 June - delayed due to purdah. Investigations on the next stretches from Combe Martin to Marsland Mouth and Kingswear to Cremyll would commence Stage 1 (investigation) in June.

The closing date for the consultation was 25 May at 5 p.m. Members were asked to provide any comments by 5 May.

Action: Members to submit comments to the Forum Officer.

13. To consider and approve draft disability access position statement

A discussion took place on the draft disability access position statement and further suggestions made by Gordon Guest. It was agreed it needed to be clearer with the

number of advisory bullets increased to focus attention. The statement was aimed at local authorities, developers, planners and councils and it was agreed the content should reflect that and elements of best practice. Although there were other types of disability it was agreed restricted mobility should be the main focus of the position statement with a statement reflecting that improvements for wheelchairs and trampers would also benefit buggy users. It was agreed the legal framework around equality and public responsibilities should be included.

The DCAF resolved that an initial draft should be worked on by Gordon Guest, Chris Cole, Jo Hooper and Maggie Watson before circulating to all members.

Action: Forum Officer to progress with the disability sub-group.

14. Work Plan

Following discussion it was agreed that the National Trust should be invited to speak at the October meeting and either Countryside Mobility or Living Options at the January meeting.

A joint training event with Dartmoor Access Forum was proposed.

It was agreed working groups would be arranged in the autumn to discuss coastal access for forthcoming stretches in South and North Devon.

It was noted that horse riding information for Devon was not as comprehensive as it could be. Multi-use sections of the National Cycle Network were not clear, unlike some other counties such as Cornwall and Dorset. It was confirmed the recreational trail information was not the responsibility of the Public Rights of Way section but Explore Devon. The Public Rights of Way website marked clearly all the bridleways. It was agreed to convene a working group to discuss this and also the availability of carriage driving access. Members of the group confirmed as Chris Cole, John Daw, Chris Ingram and Linda Lee.

Action: Forum Officer to arrange working group and speak to Explore Devon prior to the meeting.

Chris Cole provided a list of acronyms used by the Trail Riders' Fellowship and suggested a DCAF version might be useful.

Action: Forum Officer to progress.

15. Training Day

A joint training day with Dartmoor Access Forum to view Fingle Woods in the first week of July was proposed.

Action: Forum Officer to liaise with Dartmoor Access Forum.

16. National LAF Conference

The Conference was on 21 June in Birmingham. Sarah Slade offered to attend with Jo Hooper and Sue Pudduck as 2nd and 3rd reserves.

17. Dates of meetings 2017-18

Dates for 2017-18 were confirmed as 12 October and 25 January.

18. Any other business

18.1 County Councillors on the DCAF

Thanks were expressed to Cllr Philip Sanders and Cllr Jim Knight for their work on the DCAF during their term as Chair and Vice Chair of the Public Rights of Way Committee, DCC.

18.2 Bridges

Gordon Guest noted access improvements to bridges at Cullompton, Heddon Valley and on the Granite Way. It was agreed he should write as an individual to express thanks, stating that he had raised this at the DCAF meeting.

Action: Gordon Guest

18.3 Website biographies

Biographies would be added to the DCAF website following the DCC elections and confirmation of councillors as Chair and Vice Chair of the Public Rights of Way Committee.

18.4 DCAF Annual Report

The report would be compiled shortly and circulated to last year's members.

18.5 Letterhead

It was agreed not to alter the current DCAF logo when letterheads are re-printed.

HIW/17/48

Public Rights of Way Committee
6 July 2017

Definitive Map Review 1997 - 2017 Parish of Burlescombe

Please note that the following recommendation is subject to consideration and determination by the Committee before taking effect.

Recommendation: It is recommended that it be noted that the Definitive Map Review has been completed in the parish of Burlescombe and no modifications are required to be made.

1. Introduction

The report examines the Definitive Map Review in the parish of Burlescombe in Mid Devon District.

2. Background

The original parish survey, under s. 27 of the National Parks and Access to the Countryside Act 1949, proposed thirty four footpaths in Burlescombe. After review by the County Council and Parish Council, a number of paths were considered to be private or withdrawn and subsequently twenty four footpaths were proposed for inclusion on the draft Definitive Map. Representations and objections were made to five paths by the British Transport Commission and twenty one footpaths were subsequently recorded on the Definitive Map and Statement for Burlescombe in Tiverton Rural District Council with a relevant date of the Definitive Map for the district of 18 June 1963. Footpaths Nos. 9, & 11 were stopped up in 1964 for the Redland Tile factory development and Footpath No. 25 was extinguished in 1970. There are now eighteen public footpaths currently recorded on the Definitive Map for the parish.

Proposals for change were received from the Parish Council in respect of the 1968 uncompleted County reviews which had been kept on file. These were for the extinguishment of Footpaths No. 19, 29 & 31 as no longer used and No. 30 as no longer served any purpose and the addition of a footpath from Crocker Crossway up over the quarry escarpment to join the footpath to Holcombe Rogus. No user or other evidence was submitted with these proposals and the general review did not progress. No suggestions for change were made by the parish council in respect of the 1977 review.

The Limited Special Review of Roads Used as Public Paths (RUPPS), also carried out in the 1970s, did not affect this parish.

The following Orders have been made and confirmed:

Minister of Transport Footpaths Nos. 9 & 11, Burlescombe Town & Country Planning Act Orders 1964.

Tiverton Rural District Council Footpath No. 25, Burlescombe Public Path Stopping Up Order 1970.

The Secretary of State for the Environment Footpaths No. 19 & No. 32 Burlescombe The M5 Motorway (Chelston – Willand Side Roads) Order 1972.

Tiverton District Council Footpath No. 14, Burlescombe Public Path Diversion Order 1977.

Devon County Council Part of C102 road at Burlescombe Section 116 Stopping Up Order (with reservation of Footpath No. 36, Burlescombe) 1985.

Mid Devon District Council Footpath No. 6, Burlescombe Public Path Diversion Order 1986.

Agenda Item 5

Mid Devon District Council Footpath No. 6, Burlescombe Public Path Diversion Order 1989.
Mid Devon District Council Footpath No. 7, Burlescombe Public Path Diversion Order 1994.
Mid Devon District Council Footpath No. 15, Burlescombe Public Path Diversion Order 1995.
Mid Devon District Council Footpath No. 28, Burlescombe & No. 4, Uffculme Public Path Diversion Order 1996.
Mid Devon District Council Footpaths No. 6, Burlescombe & No. 16, Holcombe Rogus Public Path Diversion Order 1997.
Mid Devon District Council Footpath No. 32, Burlescombe Public Path Diversion Order 2000.

Legal Event Modification Orders will be made for these changes under delegated powers in due course.

The review recommenced in November 2016 with a public meeting held in the Community Hall at Burlescombe, prior to the evening's parish council meeting. The routes previously claimed by the Parish Council in the 1968 review were raised at the meeting. The Parish Council and public attending were asked whether they wanted these routes to be considered as proposals for change under the current review and that if they did, evidence would be required to support an addition of a footpath or other public right of way.

3. Proposals

The Parish Council subsequently confirmed that they would not be presenting or supporting any of the proposals that had been suggested in the previous reviews. No other proposals were suggested for the addition, up or down grading or deletion of any public rights of way in the parish. No responses were received from any other parishioners or members of the public with any other proposals for consideration under the definitive map review.

In the absence of any valid proposals or claims for change, the definitive map review consultation map for Burlescombe was published with no proposals for change to the Definitive Map in the parish.

4. Consultations

Public consultation for the Definitive Map Review in the parish was carried out in March and April 2017 with no proposals for changes to the Definitive Map. The review was advertised in the parish newsletter, on the parish noticeboard, in a local newspaper and a copy of the consultation notice was also displayed in Burlescombe and Westleigh village centres.

The responses were as follows:

County Councillor R Radford	-	no comment
Mid Devon District Council	-	no comment
Burlescombe Parish Council	-	see above
British Horse Society	-	no comment
Devon Green Lanes Group	-	no comment
Ramblers' Association	-	no comment
Trail Riders' Fellowship	-	no comment
Country Land & Business Association	-	no comment
National Farmers' Association	-	no comment
Cyclists Touring Club	-	no comment

No further proposals have been received during the period of consultation with the parish council, public and local user group representatives.

5. Financial Considerations

Financial implications are not a relevant consideration to be taken into account under the provision of the Wildlife and Countryside Act 1981. The Authority's costs associated with Modification Orders, including Schedule 14 appeals, the making of Orders and subsequent determinations, are met from the general public rights of way budget in fulfilling our statutory duties.

6. Legal Considerations

The implications/consequences of the recommendation(s) have been taken into account in the preparation of the report.

7. Risk Management Considerations

No risks have been identified.

8. Equality, Environmental Impact and Public Health Considerations

Equality, environmental impact or public health implications have, where appropriate under the provisions of the relevant legislation, been taken into account in the preparation of the report.

9. Conclusion

It is recommended that members note that the Definitive Map Review has been completed in the parish of Burlescombe and no modifications are required to be made. Should any valid claim with sufficient evidence be made in the next six months, it would seem reasonable for it to be determined promptly rather than be deferred.

10. Reasons for Recommendation

To undertake the County Council's statutory duty under the Wildlife and Countryside Act 1981 to keep the Definitive Map and Statement under continuous review and to progress the parish by parish review in the Mid Devon District area.

Public Rights of Way Committee
6 July 2017

Definitive Map Review Parish of Bittadon, with Marwood and West Down

Report of the Acting Chief Officer for Highways, Infrastructure Development and Waste

Please note that the following recommendation is subject to consideration and determination by the Committee before taking effect.

Recommendation: It is recommended that no Modification Order be made to modify the Definitive Map and Statement in respect of Proposal 1, in the parish of Bittadon, with Marwood and West Down.

1. Introduction

This report examines a claim submitted by the Trail Riders Fellowship in November 2005 in the parish of Bittadon.

2. Background

The original survey under s. 27 of the National Parks and Access to the Countryside Act 1949 revealed that four footpaths and no bridleways were recorded on the Definitive Map and Statement with a relevant date of 1st September 1957.

The review of the Definitive Map, under s.33 of the 1949 Act, which commenced in the late 1960s but was never completed, produced a number of proposals for change to the Definitive Map at that time. The Limited Special Review of RUPP's, carried out in the 1970s, did not affect the parish.

The following order has been made and confirmed:

Devon County Council (Footpath No. 4, Bittadon) Public Path Diversion Order 1999.

A Legal Event Modification Order will be made for this change under delegated powers in due course.

The current review began with an opening public meeting held in May 2010 in the parish. No proposals arose from previous reviews. A Schedule 14 application made in 2005 has been picked up as part of the current Review.

3. Proposals

Please refer to the appendix to this report regarding the Schedule 14 application: Proposed addition of a byway open to all traffic along Bittadon Lane, Bittadon, as shown between points A – B – C – D – E –F on plan EEC/PROW/11/67.

Agenda Item 6

4. Consultations

General consultations have been carried out with the following results:

County Councillor Andrea Davis	– no comment
North Devon Council	– no comment
Bittadon Parish Meeting	– no comment
West Down Parish Council	– no objection to the application
Marwood Parish Council	– no comment
British Horse Society	– no comment
Byways & Bridleways Trust	– no comment
Country Landowners' Association	– no comment
Devon Green Lanes Group	– no comment
National Farmers' Union	– no comment
Open Spaces Society	– no comment
Ramblers'	– no comment
Trail Riders' Fellowship	– no comment

Specific responses are detailed in the appendix to this report and included in the background papers.

5. Financial Considerations

Financial implications are not a relevant consideration to be taken into account under the provision of the Wildlife and Countryside Act 1981. The Authority's costs associated with Modification Orders, including Schedule 14 appeals, the making of Orders and subsequent determinations, are met from the general public rights of way budget in fulfilling our statutory duties.

6. Legal Considerations

The implications/consequences of the recommendation have been taken into account in the preparation of the report.

7. Risk Management Considerations

No risks have been identified.

8. Equality, Environmental Impact and Public Health Considerations

Equality, environmental impact or public health implications have, where appropriate under the provisions of the relevant legislation have been taken into account.

9. Conclusion

It is recommended that no Modification Order be made in respect of Proposal 1. There are no further proposals for modifying the Definitive Map. A diversion of Footpath Nos. 3 and 4 will be dealt with under delegated powers.

Should any further valid claim with sufficient evidence be made within the next six months it would seem reasonable for it to be determined promptly rather than deferred.

10. Reasons for Recommendations

To undertake the County Council's statutory duty under the Wildlife and Countryside Act 1981 to keep the Definitive Map and Statement under continuous review and to progress the parish by parish review in the North Devon area.

Agenda Item 6

Appendix I To HIW/17/49

A. Basis of Claim

The Highways Act 1980, Section 31(1) states that where a way over any land, other than a way of such a character that use of it by the public could not give rise at common law to any presumption of dedication, has actually been enjoyed by the public as of right and without interruption for a full period of 20 years, the way is deemed to have been dedicated as a highway unless there is sufficient evidence that there was no intention during that period to dedicate it.

Common Law presumes that at some time in the past the landowner dedicated the way to the public either expressly, the evidence of the dedication having since been lost, or by implication, by making no objection to the use of the way by the public.

The Highways Act 1980, Section 32 states that a court or other tribunal, before determining whether a way has or has not been dedicated as a highway, or the date on which such dedication, if any, took place, shall take into consideration any map, plan, or history of the locality or other relevant document which is tendered in evidence, and shall give such weight thereto as the court or tribunal considers justified by the circumstances, including the antiquity of the tendered document, the status of the person by whom and the purpose for which it was made or compiled, and the custody in which it has been kept and from which it is produced.

The Wildlife and Countryside Act 1981, Section 53(3)(c) enables the Definitive Map to be modified if the County Council discovers evidence which, when considered with all other relevant evidence available to it, shows that:

- (i) a right of way not shown in the map and statement subsists or is reasonably alleged to subsist over land in the area to which the map relates.
- (ii) a highway shown in the map and statement as a highway of a particular description ought to be there shown as a highway of a different description.
- (iii) there is no public right of way over land shown in the map and statement as a highway of any description, or any other particulars contained in the map and statement require modification.

The Wildlife and Countryside Act 1981, Section 53(5) enables any person to apply to the surveying authority for an order to modify the Definitive Map. The procedure is set out under WCA 1981 Schedule 14.

The Wildlife and Countryside Act 1981, Section 56(1) states that the Definitive Map and Statement shall be conclusive evidence as to the particulars contained therein, but without prejudice to any question whether the public had at that date any right of way other than those rights.

In relation to claims for byways open to all traffic (BOATS), Section 67 of the Natural Environment and Rural Communities Act 2006 (NERC) extinguishes certain rights of way for mechanically propelled vehicles except for the circumstances set out in sub-sections 2 to 8. The main exceptions are that:

- (a) it is a way whose main use by the public during the period of 5 years ending with commencement was use for mechanically propelled vehicles;
- (b) it was shown on the List of Streets;
- (c) it was expressly created for mechanically propelled vehicles;
- (d) it was created by the construction of a road intended to be used by such vehicles;

(e) it was created by virtue of use by such vehicles before 1 December 1930.

Extinguishment of rights for mechanically propelled vehicles also does not apply if, before the relevant date (20 January 2005), an application was made under section 53(5) of the Wildlife and Countryside Act 1981, or such an application was determined by a surveying authority, for an order to modify the definitive map and statement as to show a BOAT.

The judgement in the case of *R. (on the application of Winchester College) v Hampshire County Council (2008)* however, found that for such exceptions to be relevant the application must fully comply with the requirements of paragraph 1 of Schedule 14 to Wildlife and Countryside Act 1981. It is appropriate therefore firstly to determine whether or not the claimed vehicular rights subsist and, secondly, whether or not any exceptions apply; if vehicular rights subsist but the exceptions are not engaged then the appropriate status is restricted byway. Such claims may also be considered for a lower status.

B. Definition of Ratione tenurae Roads

Research into Highway Board, Rural District Council and Parish Council minutes has indicated that '*ratione tenurae*' roads were, from the late 19th century types of road expected to be used by the public, but with the adjacent landowners/occupiers of the road/lane being responsible for the maintenance of the roads.

Section 25(2) of the Local Government Act 1894 enacted that if a person liable to repair a highway '*ratione tenurae*' failed to do so, after being requested by the district council, the council could repair the highway and recover the expenses from the person liable.

Agenda Item 6

- 1 **Proposal 1: Schedule 14 application: Proposed addition of a byway open to all traffic along Bittadon Lane, Bittadon, as shown between points A – B – C – D – E –F on plan EEC/PROW/11/67.**

Recommendation: That no Modification Order be made in respect of Proposal 1.

1.1 Background

- 1.1.1 The claim is one of a number of Schedule 14 applications submitted by the Trail Riders Fellowship in response to the proposed Natural Environment and Rural Communities Act 2006 (NERC Act). The NERC Act would restrict the ways that new rights of ways for motorised vehicles in the countryside could be created or recorded. A right for motor vehicles was preserved under the NERC Act if a Schedule 14 Application, that is compliant with the regulations for Schedule 14 applications under the Wildlife & Countryside Act 1981, had been made prior to 20 January 2005 or the surveying authority has made a determination of an application for a Byway open to all traffic (BOAT) before 2 May 2006.
- 1.1.2 The application in question was however made in November 2005 which was after 20 January 2005 and therefore does not engage this particular exception to extinguishment of rights for motorised vehicles.
- 1.1.3 In line with our policies, determination of the application was deferred, to be dealt with as part of the parish-by-parish Definitive Map Review, by which the County Council carries out its statutory duty to keep the definitive map and statement under continuous review. It was included in the parish review consultation as a proposal for the addition of a BOAT, as originally applied for, as there are other limited exemptions in which vehicle rights may be preserved.

1.2 Description of the Route

- 1.2.1 The route starts at the county road, C582 at Burland Cross, point A in West Down parish and runs along an unmetalled lane, Bittadon Lane east south eastwards to the boundary with Marwood parish at point B. It continues along Bittadon Lane through Marwood parish to the boundary with West Down parish at point C where it passes into West Down parish again. The lane then passes under the B3230 and then through to a tributary of the Colam Stream and the boundary with Bittadon parish at point D. From there it continues into the hamlet of Bittadon where it meets Bittadon Footpath Nos. 1 and 3 at point E by Bittadon Barton, where it turns southwards along Bittadon Footpath No. 3 to meet the county road, R1409, at point F.

1.3 Documentary Evidence

- 1.3.1 Barnstaple Turnpike Trust records, 1763-1879. The statutory processes for turnpike management were set out under the General Turnpike Acts of 1766, 1773, and 1822.
- 1.3.2 Turnpike Trusts were bodies set up by individual acts of Parliament, with powers to collect road tolls for maintaining the principal roads in Britain from the 17th but especially during the 18th and 19th centuries. At the peak, in the 1830s, over 1,000 trusts administered around 30,000 miles of turnpike road in England and Wales, taking tolls at almost 8,000 toll-gates and side-bars. Turnpikes declined with the coming of the railways and then the Local Government Act of 1888 gave responsibility for maintaining main roads to county councils and county borough councils.

- 1.3.3 The Barnstaple Turnpike Trust was set up under an Act of Parliament in 1763 covering over 100 miles of roads around Barnstaple, with one of its main responsibilities being the road to Ilfracombe. Some of the Trust's returns of accounts have survived; though those between 1825-1827, when a new turnpike road was constructed (now the B3230) which affected Bittadon Lane, have not. There is however, a reference in the return for 1824-5 to £9250/0/0 being paid to the Ilfracombe New Road account. This road was created by an Act of Parliament under the Public Act, 7 & 8 Geo4 c14 in 1827.
- 1.3.4 Individual road schemes were promoted by Special Acts. The books of reference and deposited plans made in the course of the process needed to be of a high standard, as they formed the basis for legislation and were in the public domain. Consequently, they were scrutinised by all relevant parties who would not unnecessarily to cede ownership, rights or responsibilities, as the status of a way had an impact on the cost of the scheme.
- 1.3.5 A plan was drawn up by the Barnstaple Turnpike Trust and deposited with the County's Clerk of the Peace in 1826, to create a significant new road along the Taw valley to replace the old Exeter highway. The deposited plan showed the proposed lines of roads to form part of the Barnstaple Turnpike Trust, and was surveyed by Charles Bailey, who was employed by five turnpike trusts, at a scale of 3" to 1 mile.
- 1.3.6 The plan shows the proposal route as the shortest route to the hamlet of Bittadon from the original turnpike road (now the county road, C582) from Burland Cross at point A. It is shown as a more substantial highway than what is currently recorded as a county road between Burland Cross and West Down. It also shows the alignment of the proposed new road and that of the existing turnpike road. It also shows the current county road access to Bittadon (R1409), which was part of a longer access route to the hamlet from the south across formerly unenclosed Swindon Down from Gipsy Corner in Marwood parish. None of the highways affected were referred to.
- 1.3.7 In the land valuation particulars for the new turnpike road through Bittadon, no existing highways are included or referenced, including the current county road (R1409) into Bittadon. Bittadon Lane, between points A – B – C – D, is shown on the deposited plan wholly within Marwood parish, which is incorrect. A reference is made under plot 58 owned by Mr Anthony Loveband Esq. that *'a tunnel [was] to be constructed under the [new turnpike] Road for cattle to pass to water in any proper situation which might be pointed out by the Proprietor'*.
- 1.3.8 Highway Presentments, 1766-1812. Such records may provide conclusive evidence of the stopping up or diversion of highways. Presentments or indictments for the non-repair of highways may also be included and may provide strong evidence of status where they are confidently identifiable.
- 1.3.9 There are several relevant references in the locality of the proposal route. In 1772, a presentment was recorded for the non-repair of the road from Ilfordcombe (Ilfracombe) to Barnstaple through the parish of West Down, the fine for which was £50 (value conversion 1770 to 2005 is £3,184.50). In 1809, a presentment was recorded for the road 'from a gateway and hedge which divides West Down from Marwood home to stone which divides West Down from Bittadon. In 1810, there was a presentment for the road through Bittadon parish from Hoar Down Gate to the road to Berry Down Gate.

Agenda Item 6

- 1.3.10 There are no references which could be identified as the proposal route, Bittadon Lane.
- 1.3.11 West Down Surveyors of Highways Accounts, 1796-1840. Prior to the formation of District Highway Boards in the early 1860s and the later Rural District Councils (1894) the responsibility for the maintenance of public highways generally belonged to the parish and was discharged by elected Surveyors of Highways. Relevant Acts of 1766, 1773 and 1835 included the provision for the use of locally available materials and there was a statutory requirement upon parishioners to fulfil a fixed annual labour commitment. The final responsibility for maintenance lay with the local Surveyor of Highways who was obliged to keep a detailed account of public monies expended.
- 1.3.12 The parish roads are not frequently named in the records. There are no references which could be identified as the proposal route, Bittadon Lane, between points A – B – C – D.
- 1.3.13 Ordnance Survey Draft Drawing – Barnstaple sheet, 1804-5. The proposal route, Bittadon Lane, between points A – B – C – D – E – F, is shown as a through route and in the same manner as other local roads. It is the most direct route to Bittadon hamlet from the original turnpike road which ran north/south past Burland Cross at point A.
- 1.3.14 The proposal route, Bittadon Lane, between points A – B – C – D – E – F is shown as a cross road and the shortest route from the original turnpike road (now the county road, C582) into the hamlet of Bittadon. The only alternative to this was an unenclosed road from Metcombe Cross in Marwood parish across the former common from the south, known as Swinham/Swindon Down, which is now mostly recorded as Marwood Footpath No. 10 and the county road into Bittadon, R1409. This would have been only convenient if travelling from Marwood or Barnstaple.
- 1.3.15 Ordnance Survey mapping, 1809-1962. Ordnance Survey maps do not provide evidence of the status of this route but rather its physical existence over a number of years. These early Ordnance Survey maps carried a disclaimer, which states that: "The representation on this map of a road, track or footpath is no evidence of a right of way".
- 1.3.16 On the small scale 1" to 1 mile Ordnance Survey mapping shows the proposal route as a cross road from the original turnpike road from Burland Cross at point A, and the most direct route into Bittadon, the only alternative being a road from Metcombe Cross in Marwood parish across the former common from the south, known as Swinham/Swindon Down, which is now mostly recorded as Marwood Footpath No. 10 and the county road into Bittadon, R1409.
- 1.3.17 The proposal route between points A – B – C – D – E – F is shown on the 1st Edition large scale 25" Ordnance Survey mapping of 1889 as open and available, part of the local highway network and shown in the same manner as other recorded public highways. It is annotated 'Bittadon Lane'. There is a well in the lane between points D – E, which is only shown on the 1st Edition. It is shown in a similar manner on the 2nd Edition of 1904, with a change of surface at point A, at Burland Cross, as does the Post War A Edition of 1961, but also with a change of surface at point F at Bittadon.
- 1.3.18 A double dashed track to the B3230 is shown adjacent to the proposal route, Bittadon Lane, which partially follows the alignment of Marwood Footpath No. 19, but only the eastern half.
- 1.3.19 Cary's Map, 1821. Besides the Ordnance Survey, Cary was the leading map publisher in the 19th century. He maintained a high standard of maps, using actual trigonometric

surveys and other up to date source materials including parliamentary documents, which was reflected by his employment to survey the 9,000 miles of turnpike roads in 1794.

- 1.3.20 The proposal route known as Bittadon Lane is shown between points A – B – C – D – E – F, from the then turnpike road (now the county road, C582) which ran from Marwood to Ilfracombe via Burland Cross at point A, near the six mile marker from Barnstaple.
- 1.3.21 Greenwood's Map, 1827. These well-made maps were produced using surveyors and a triangulation system, and are considered to be reasonably accurate.
- 1.3.22 The map appeared in 1827 at a scale of one inch to the mile, and includes a route in a similar position to the proposal route, Bittadon Lane, as a "*cross-road*", enclosed for its entire length as the main route between Burland Cross to Bittadon from the original turnpike road, now the county road, C582.
- 1.3.23 Marwood Vestry Minutes, 1827-94. Such records can provide information about the management of the route and the Council's views regarding the public highways in the parish. A public body such as a Vestry had powers only in relation to public highways through the appointed Surveyor of Highways historically, which they had a responsibility to maintain. However, many of the roads within the parish were repaired '*ratione tenurae*' and consequently may not be recorded in these records.
- 1.3.24 There are no references which could be identified as the proposal route, Bittadon Lane.
- 1.3.25 Fullabrook Barton & Baker's Tenement Estate Map, 1833. Estate map were normally compiled by professional surveyors and are therefore likely to be reasonably accurate. The plan was surveyed by Richard Passmore of Braunton.
- 1.3.26 Though the proposal is not shown, the route which is recorded as Braunton uOCR 306 and Marwood Byway No. 29, which ends at Burland Cross, is annotated 'to Bittadon'. The only route to Bittadon from Burland Cross was the proposal route, Bittadon Lane.
- 1.3.27 Bittadon Tithe Map and Apportionment, 1839-40. Tithe Maps were drawn up under statutory procedures laid down by the Tithe Commutation Act 1836 and subject to local publicity, limiting the possibility of errors. Their immediate purpose was to record the official record of boundaries of all tithe areas. Public roads were not titheable and were sometimes coloured, indicating carriageways or driftways. Tithe maps do not offer confirmation of the precise nature of the public and/or private rights that existed over a route shown. Such information was incidental and therefore is not good evidence of such. Public footpaths and bridleways are rarely shown as their effect on the tithe payable was likely to be negligible. Routes which are not numbered are usually included under the general heading of '*public roads and waste*'.
- 1.3.28 The Bittadon tithe map was surveyed by Charles Cooper of Alverdiscott, Bideford, matters. The original document is held at the National Archives, with copies for the parish and diocese held locally.
- 1.3.29 The proposal route, Bittadon Lane, is shown entering the parish at the boundary with Marwood at the Colam Stream tributary as an enclosed route into the hamlet of Bittadon between points D – E – F. It is included within plot 165 – 'road' – part of the Barton, as what is now recorded as the county road, R1409 into Bittadon hamlet from the new turnpike road, now the B3230.

Agenda Item 6

- 1.3.30 Marwood Tithe Map and Apportionment, 1840-3. Tithe Maps were drawn up under statutory procedures laid down by the Tithe Commutation Act 1836 and subject to local publicity, limiting the possibility of errors. Their immediate purpose was to record the official boundaries of all tithe areas. Roads were sometimes coloured and the colouring generally indicates carriageways or driftways. Public roads were not titheable and were sometimes coloured, indicating carriageways or driftways. Tithe maps do not offer confirmation of the precise nature of the public and/or private rights that existed over a route shown. Such information was incidental and therefore is not good evidence of such. Public footpaths and bridleways are rarely shown as their effect on the tithe payable was likely to be negligible.
- 1.3.31 The Marwood tithe map is a second class surveyed at a scale of 3 chains to 1 “ by F. Cattlin, a solicitor of 39 Ely Place, Holborn, London, and is only a legal and accurate record of tithe matters. Land that was not subject to tithes was generally accepted to be either public, glebe or crown estates. In many case public roads are coloured sienna as prescribed by Lieutenant Dawson, a military surveyor with the Ordnance Survey, to the Tithe Commissioners.
- 1.3.32 The proposal route, Bittadon Lane, is shown in its entirety as a coloured ‘public road’ between points A – B – C – D, Burland Cross to the Bittadon/Marwood/West Down parish boundary, open and available, an integral part of the parish highway network, recorded in a similar manner to other currently recorded public highways. It also includes the county road into Bittadon hamlet, the R1409, as part of the network.
- 1.3.33 West Down Tithe Map and Apportionment, 1841-42. Tithe Maps were drawn up under statutory procedures laid down by the Tithe Commutation Act 1836 and subject to local publicity, limiting the possibility of errors. Their immediate purpose was to record the official record of boundaries of all tithe areas. Public roads were not titheable and were sometimes coloured, indicating carriageways or driftways. Tithe maps do not offer confirmation of the precise nature of the public and/or private rights that existed over a route shown. Such information was incidental and therefore is not good evidence of such. Public footpaths and bridleways are rarely shown as their effect on the tithe payable was likely to be negligible. Routes which are not numbered are usually included under the general heading of ‘*public roads and waste*’.
- 1.3.34 The West Down tithe map is second class and is therefore only evidence of facts with direct relevance to tithe matters. The original document is held at the National Archives, with copies for the parish and diocese held locally.
- 1.3.35 The proposal route, Bittadon Lane, is shown between points A – B – C – D as a coloured ‘public road’ and part of the parish highway network, in the same manner as recorded public highways. All roads in the parish are coloured, regardless of whether they were public or private. It is depicted with the parish boundary with West Down running along the middle of Bittadon Lane between points B – C – D to the parish boundary with Bittadon. At point D where the three parish boundaries meet, the proposal route is annotated as ‘from Bittadon’.
- 1.3.36 West Down Vestry minutes, 1841-88. Prior to the formation of District Highway Boards in the early 1860s and the later Rural District Councils (1894) the responsibility for the maintenance of public highways generally belonged to the parish and was discharged by elected Surveyors of Highways. Relevant Acts of 1766, 1773 and 1835 included the provision for the use of locally available materials and there was a statutory requirement upon parishioners to fulfil a fixed annual labour commitment. The final responsibility for maintenance lay with the local Surveyor of Highways who was obliged to keep a detailed account of public monies expended.

- 1.3.37 The parish roads are not frequently named in the records. Those roads which are specifically referenced do not include the proposal route, Bittadon Lane.
- 1.3.38 Great Western Railway Extension Exeter to Ilfracombe Deposited Plan, 1845. Individual schemes were promoted by Special Acts. The statutory process required for the authorisation of schemes was exacting, having been set out by parliamentary standing order and the Railways Clauses Consolidation Act 1845. The book of reference and deposited plans made in the course of the process needed to be of a high standard, as they formed the basis for legislation and were in the public domain. Consequently they were scrutinised by all relevant parties who would not unnecessarily to cede ownership, rights or responsibilities, as the status of a way had an impact on the cost of the scheme.
- 1.3.39 The plan shows the proposal route, Bittadon Lane, for its entire length between points A – B – C – D – E – F. Where parish roads were directly affected by the plan's proposal, it is noted in the Book of Reference, which the proposal route is not, as it was outside the limits of deviation for the scheme.
- 1.3.40 Bittadon Vestry Minutes, nd. Such records can provide information about the management of the route and the Council's views regarding the public highways in the parish. A public body such as a Vestry had powers only in relation to public highways through the appointed Surveyor of Highways historically, which they had a responsibility to maintain. The historic records could not be discovered, and it is believed that they may not have survived.
- 1.3.41 Some modern vestry records dating from the 20th century have survived, though by this time, it was not responsible for all parish matters including highways. In particular these modern records include a letter dated June 1938 regarding the proposed union of the benefices of Bittadon and West Down, which comments on an unattached Ordnance Survey map, surveyed in 1886 and revised in 1903. It refers to features on the map including the proposal route, Bittadon Lane. It comments that it *'has not been in existence from the date of the making of the Turnpike Road.....over 100 years...I can find no-one even the oldest inhabitant who had remember even a cart going along the same. It is completely overgrown, impassable and invisible as far as Lower Ayescott. Very much the same applies to the lanes shown...leading from the Church to Upcott.'*
- 1.3.42 British Newspaper Archive, 1824 onwards. This is a digital copy of many newspapers across the country. It includes local newspapers such as the Exeter Flying Post and the North Devon Journal (except 1826). The newspapers included reports on the proceedings of the Magistrates Petty Sessions, Quarter Sessions and Assizes, along with those of the various district Highway Boards and Vestrys.
- 1.3.43 North Devon Journal, 17.01.1861. At the Braunton Divisional Petty Sessions on 16th January 1861, the Marwood Overseers were summoned for neglecting the highway leading to Bittadon between the stream and the turnpike road (now recorded as a county road, B3230), and the parish road between Bittadon and Fullabrook, the proposal route, Bittadon Lane. The matter was adjourned.
- 1.3.44 Exeter and Plymouth Gazette, 18.01.1861. This reported on the above case, which was adjourned so that further evidence could be obtained.
- 1.3.45 North Devon Journal, 31.01.1861. At the Braunton Divisional Petty Sessions on 30th January 1861, the Marwood Overseers case was resumed. The Bench decided that the road between the stream and the turnpike road (now recorded as the B3230) near Fry's Hotel, was not a highway but private property (now the county road into

Agenda Item 6

Bittadon hamlet, R1409). The report does not mention the parish road believed to be the proposal route, Bittadon Lane.

- 1.3.46 Exeter and Plymouth Gazette, 01.02.1861. This reported on the above case, on which only one of the roads appears to have been decided upon, which may not be the proposal route.
- 1.3.47 Exeter Flying Post, 06.02.1861. This reported on the above case, on which only one of the roads appears to have been decided upon, which may not be the proposal route, Bittadon Lane.
- 1.3.48 North Devon Journal, 16.04.1863. An objection was lodged when the Bittadon Parish Highways Accounts were presented for approval at the County Magistrates Petty Sessions on 15th April 1863, as it was alleged that Bittadon Lane, the proposal route, between points D – F, had been repaired for 8 years at the parish's expense but without an order from the vestry. It was noted that the accounts had not been kept in the prescribed form. The matter was adjourned.
- 1.3.49 North Devon Journal, 30.04.1863. The above case resumed into the charge that the Bittadon Surveyor misappropriated funds to repair the private road, known as Bittadon Lane, the proposal route, and had used his own horses and carts without licence from the Bench. Witnesses gave evidence of parish repairs on the road for over 20 years, whilst others stated that any repair costs had been defrayed by the late Mr Brown, the affected landowner. The Bench decided that Bittadon Lane was not a parish road, but would approve the year's accounts.
- 1.3.50 North Devon Journal, 07.12.1882. At a meeting of the Ilfracombe District Highway Board, the principal matter for discussion was the question of the repair of a road leading from Bittadon to West Down, the proposal route, Bittadon Lane, between points A – B – C – D – E – F, which had been the only road from Bittadon towards Braunton and the neighbourhood before the new turnpike road, now the B3230, was cut. There was a discussion regarding who was liable for the repairs, and reference was made to the 1863 case, when it had been decided that Marwood parish was not liable. The member looking for the repair of the lane contended the route was public and that the Board should see the route repaired by whoever was liable. The matter was adjourned so that the Marwood records could be consulted.
- 1.3.51 North Devon Journal, 22.03.1883. At a meeting of the Ilfracombe District Highway Board, the liability of the Board with regard to the proposal route, Bittadon Lane was discussed at length, including the details from the 1861 case. Correspondence was read from residents of Bittadon and Georgeham parishes, along with that from the Rev. JT Pigot, the rural dean of Fremington. Though in the 1861 case, the magistrates had decided there was no evidence that Bittadon Lane was a public highway, the Board's Chairman recalled that the Board had previously ordered the Surveyor to repair the road, and that order was still in force. *'There was not the slightest doubt that it was a public highway'*, though it appeared that it was repaired *'ratione tenurae'*, by the adjacent occupiers. The Surveyor had served notice on the occupiers in October 1882 to repair Bittadon Lane; some had carried out the required works, others had not. The Surveyor was ordered to get the road repaired by the occupiers.
- 1.3.52 North Devon Journal, 19.04.1883. At a meeting of the Ilfracombe District Highway Board, the Surveyor state he had served notice on Mr Heyward of Hartnoll Barton to repair the proposal route, Bittadon Lane, who denied his liability. After much discussion including the usage and cost of repairs, it was resolved that no further action would be taken in the matter.

- 1.3.53 Ordnance Survey Boundaries Branch, 1883-5. These Ordnance Survey records include sketch maps, remark books, and inspection journals prepared under the Ordnance Survey Act 1841. They record original information on public boundaries, mostly parish boundaries, and related ground features, and bear the marks/signatures of the meresmen for the parishes on each side of the boundary. Other details included are the formal notices for the display of the maps, who inspected them and which sections, any plans they were compared with and any differences identified, and the result of investigations into such differences.
- 1.3.54 Doubt regarding the parish boundary alignment between the parishes of Marwood and West Down was raised by the Marwood Parish Meresman, Thomas Hayward. A Meresman was a person locally appointed to ascertain the exact boundaries of parish, and assisted the Ordnance Survey Surveyors' in their work. The Inspection Journal detailed the discrepancy, referring to the proposal route, Bittadon Lane.
- 1.3.55 The Surveyors were informed by the Marwood Meresman that the proposal route, Bittadon Lane, was considered to be an 'occupation road'. It was noted that it had not been repaired in about 50 years. Any repairs that had occurred, had been carried out by the adjacent occupier in West Down for the portion between points C – D and for the Marwood portion between points B – C. The Surveyor noted that the proposal route, Bittadon Lane, had not been divided between points A – B – C – D – E for the convenience of its repair. This was because adjacent occupiers remembered when the section between points A – B near Burland Cross was unenclosed on the West Down side. At one time, the section between points B – C had also been unenclosed on the Marwood side. In 1884, a resident had known the adjacent land between points B – C for 50 years, and occupied for 32 years, had never known the road repaired by either the adjacent occupiers in Marwood parish or by the Marwood Vestry. The section between points A – B from Burland Cross had apparently belonged to the adjacent farm in West Down parish and had been repaired by the occupier.
- 1.3.56 West Down Parish Council Minutes, 1894-1978. The Minutes provide information about the management of the route and the Council's views regarding the public highways in the parish. A public body such as a Parish Council had powers only in relation to public highways through the appointed Surveyor of Highways historically, which they had a responsibility to maintain.
- 1.3.57 There are no references which could be identified as the proposal route, Bittadon Lane, however what is now recorded as West Down Footpath No. 17/Braunton Footpath No. 68/Marwood Footpath No. 37 is referred to ending at Bittadon Lane, as opposed to Burland Cross, in 1946 and 1950.
- 1.3.58 Marwood Parish Council Minutes, 1894 onwards. The Minutes provide information about the management of the route and the Council's views regarding the public highways in the parish. A public body such as a Parish Council had powers only in relation to public highways through the appointed Surveyor of Highways historically, which they had a responsibility to maintain.
- 1.3.59 There are no references which could be identified as the proposal route, Bittadon Lane.
- 1.3.60 Bittadon Parish Meeting minutes, 1894-2009. The Minutes provide information about the management of the route and the Council's views regarding the public highways in the parish. A public body such as a Parish Council or Meeting had powers only in relation to public highways through the appointed Surveyor of Highways historically, which they had a responsibility to maintain.

Agenda Item 6

- 1.3.61 The historic records of the Bittadon Parish meeting are not known to have survived.
- 1.3.62 Barnstaple Rural District Council Minutes, 1893-1974. The Minutes provide information about the management of the route and the Council's views regarding the public highways in the parish. A public body such as a District Council had powers only in relation to public highways through the appointed Surveyor historically, which they had a responsibility to maintain.
- 1.3.63 There are a number of references to the highways in Bittadon parish in these records, but there is little detail, and none relate to the proposal route, Bittadon Lane.
- 1.3.64 Devon County Council Main Roads Committee, 19th-20th century. The Minutes provide information about the management of the route and the Council's views regarding the public highways in the parish. A public body such as a County Council had powers only in relation to public highways through the appointed Surveyor historically, which they had a responsibility to maintain.
- 1.3.65 At a meeting of the Committee on the 12th February 1909, it was resolved that a contribution was paid of £50 (worth £2,853 in 2005) for works regarding the cattle creep at Burland, West Down, (actually Marwood) under the new turnpike road, now the B3230.
- 1.3.66 Finance Act, 1909-10. The Finance Act imposed a tax on the incremental value of land which was payable each time it changed hands. In order to levy the tax a comprehensive survey of all land in the UK was undertaken between 1910 and 1920. It was a criminal offence for any false statement to be knowingly made for the purpose of reducing tax liability. If a route is not included within any hereditament there is a possibility that it was considered a public highway, though there may be other reasons to explain its exclusion.
- 1.3.67 The proposal route is excluded between point A at Burland Cross and point D at the tributary of the Colam Stream, where it passes through the parishes of West Down and Marwood. The remainder which falls within Bittadon parish is included within hereditament 1, which also covers part of Marwood parish.
- 1.3.68 The Field Book entry for hereditament 1 in Bittadon parish refers to an easement for a footpath between farms. It also refers to a public footpath over Ordnance Survey number 153 at Narracott. There is no deduction for either right of way, nor what is now recorded as Marwood Footpath No. 19 or Bittadon Footpath Nos. 1 and 3. A plan in the Field Book entry shows the proposal route as a 'road', as is the continuation of the county road from the main road to the hamlet of Bittadon (R1409) along what is the start of Bittadon Footpath No. 1.
- 1.3.69 Bittadon, Marwood & West Down Freehold Estate Sale, 1918. Sales documents were compiled when a public auction took place. They were drawn up by the landowner or their agent. The public roads will have been excluded from such sales. It is also likely that if a lot has an easement or public right of way over it, it is likely to be detailed in the particulars. Sales particulars should be treated with some caution. The art of embellishment in advertising is not a newly acquired skill.
- 1.3.70 The proposal route, Bittadon Lane, between points D – E – F, is included within the sale within lot 2, Bittadon Barton, plot 26, road.
- 1.3.71 Bacon's map, circa. 1920s. This map were designed for *tourists and cyclists* with the roads classified for *driving and cycling purposes*. Its classification includes First Class roads, Secondary roads which were in good condition, Indifferent roads that were

passable for cyclists and other uncoloured roads that were considered inferior and not to be recommended. Additionally, Footpaths and Bridleways were marked on the maps as a pecked line symbol. Cyclists were confined to public carriage roads until 1968. The small scale does not permit all existing routes to be shown, omitting some more minor routes. The purpose of these maps was to guide the traveller along the routes most suitable for their mode of transport.

- 1.3.72 The map is too small scale to depict the proposal route, Bittadon Lane, or what is now recorded as the county road between the former turnpike road, the B3230 and the hamlet of Bittadon.
- 1.3.73 Bartholomew's maps, 1920s onwards. These maps were designed for *tourists and cyclists* with the roads classified for *driving and cycling purposes*. They were used by and influenced by the Cyclists Touring Club founded in 1878 which had the classification of First Class roads, Secondary roads which were in good condition, Indifferent roads that were passable for cyclists and other uncoloured roads that were considered inferior and not to be recommended. Additionally, Footpaths and Bridleways were marked on the maps as a pecked line symbol. Cyclists were confined to public carriage roads until 1968. The small scale does not permit all existing routes to be shown, omitting some more minor routes. The purpose of these maps was to guide the traveller along the routes most suitable for their mode of transport.
- 1.3.74 Maps dating from 1924 and 1932 show the proposal route only where it runs through Bittadon parish between points D – E – F. It is depicted as an Inferior Road and not to be recommended, which is the lowest category the maps show. The majority of those roads shown in the parish are included in that category.
- 1.3.75 Definitive Map Parish Surveys, 1950s. The compilation process set out in the National Parks and Access to the Countryside Act 1949 involved a substantial amount of work and such records are considered a valuable source of information. The rights of way included in the process had to pass through draft, provisional and definitive stages with repeated public consultations.
- 1.3.76 There is no reference to the proposal route, Bittadon Lane, in the Bittadon, West Down or Marwood surveys. The West Down parish survey form for path 17 (actually recorded for the majority of its length as Braunton Footpath No. 68 and Marwood Footpath No. 37) as going 'to Bittadon'.
- 1.3.77 Definitive Map and Statement, 1957. The Statement describes Marwood Footpath No. 19 as running through fields on the '*south side of Bittadon Lane*', while the Statement for Marwood Footpath No. 37 describes it starting at the '*county road C582 at Bittadon Lane*', as opposed to Burland Cross.
- 1.3.78 Bittadon Barton sale, 1993. Sales particulars should be treated with special caution, as the art of embellishment in advertising is not a newly acquired skill. Nevertheless, if a public right of way were admitted, a convincing reason for disregarding the entry would need to be provided before it could be entirely discounted.
- 1.3.79 The proposal route, Bittadon Lane was not included in the sale.
- 1.3.80 Route Photographs, 2009 and 2014. Site photographs of the proposal route show that it is open and available, though at times it has been a bit overgrown.

Agenda Item 6

- 1.3.81 Land Registry, 2016. The proposal route, Bittadon lane, is excluded from land holdings between points A – B – C – D where it runs through the parishes of West Down and Marwood, but included between points D – E – F within Bittadon parish.

1.4 Landowner Evidence

- 1.4.1 Messers Ayres of Crackaway Barton have been farm tenants since 1896 and have more recently taken ownership of land on the north side of the route. They have believed for over 65 years that the proposal route, Bittadon Lane, to be public for the use of local farmers and residents of Bittadon parish with horses and carts and farm stock. The public have been seen using the route. They have not made a Section 31(6) deposit. They have not challenged anyone using the route or told them it was not public.
- 1.4.2 Mr Gould has tenanted and subsequently owned no. 1 Bittadon Cottages which is adjacent to the proposal route since 1965. He has known the route for 51 years and does not believe the route to be public. He states on his evidence form that he has not seen anyone using the route. However, he has told about 5 people that the route was not public and has referred a person to the occupiers of Bittadon Barton, who own the Bittadon end of the route between points D – E – F. Mr Gould has not made a Section 31(6) deposit. He believes that the lane originally provided access to Bittadon Barton before the B3230 was constructed.
- 1.4.3 Mr and Mrs Perkins have owned no. 2 Bittadon Cottages which is adjacent to the proposal route since 2008, but live in Wallingford, Oxfordshire. They do not believe the proposed route to be public and have not seen anyone using it, nor have they made a Section 31(6) deposit. The water supply for the hamlet is on the route and they would be concerned if this was affected.
- 1.4.4 Mr Crocombe of Burland Farm did not complete a landowner evidence form.
- 1.4.5 Mr and Mrs Balacke of Bittadon Barton did not complete a landowner evidence form.
- 1.4.6 Mr Houlford of Church Farm did not complete a landowner evidence form.

1.5 Discussion

- 1.5.1 Statute – Section 31 Highways Act 1980. There does not appear to be a specific date on which the public's right to use the proposal route, Bittadon Lane, has been called into question. No recorded users have been challenged or notices erected against use by any means.
- 1.5.2 As there is no specific date of calling into question or user evidence, the proposal cannot be considered under statute law. However, the proposal route, Bittadon Lane, may still be proven to exist as a public right of way at common law. Evidence of dedication by the landowners can be express or implied and an implication of dedication may be shown at common law if there is evidence, documentary, user or usually a combination of both from which it may be inferred that a landowner has dedicated a highway and that the public has accepted the dedication.
- 1.5.3 A claim for a right of way may also exist at common law. Evidence of dedication by the landowners can be express or implied and an implication of dedication may be shown at common law if there is evidence, documentary, user or usually a combination of both from which it may be inferred that a landowner has dedicated a highway and that the public has accepted the dedication.

- 1.5.4 Common Law. On consideration of the proposal for Bittadon Lane at common law, the historical mapping shows that the proposal route has physically existed between points A – B – C – D – E – F as the shortest route between Bittadon and the surrounding area, since at least 1804 when recorded on the Ordnance Survey's 1" to 1 mile scale mapping, as a cross road in a similar manner to the currently recorded county road into Bittadon (R1409), which is part of an older route from Metcombe Cross on Swindon Down in Marwood parish, now recorded for the most part as Marwood Footpath No. 10. It is shown in a similar way on Cary's Map of 1821 and Greenwood's Map of 1827, from near the 6 mile marker on the original turnpike road at Burland Cross.
- 1.5.5 The proposal route, Bittadon Lane, between points A – B – C – D – E – F is shown as the most direct route between the original turnpike road between Barnstaple and Ilfracombe at Burland Cross (5 direction crossroads) and Bittadon. There was an alternative route from Metcombe Cross, Marwood, but only if travelling from the direction of Marwood and Barnstaple.
- 1.5.6 In 1826, a deposited plan by the Barnstaple Turnpike Trust proposes a new turnpike road between Barnstaple and Ilfracombe (now the B3230) to follow the river rather than the original road via Burland Cross at point A, at the end of the proposal route, Bittadon Lane. The relevant Book of Reference however does not refer to any existing highways shown on the plan, only the land. The valuation papers relating to land affected by the new road alignment record the proposed construction of 'a tunnel...under the Road [the B3230 as shown on the plan] for cattle to pass to water'. The cattle creeps are on either side of the proposal route, Bittadon Lane between points C – D, under the main road at a higher level than the lane to allow access to the Colam Stream from the fields. In 1827 the deposited plan of 1826 was enacted by Parliament, and the new turnpike road (now the B3230) was completed over the next couple of years. This is interesting as at that time, there could be severe financial penalties from the local magistrates if cattle were on the highway, unless going to market. It implies that the proposal route, Bittadon Lane, between points A – B – C – D – E may have been considered a 'highway' used by the public, which cattle would not be permitted on.
- 1.5.7 The construction of the new turnpike road, which is now recorded as the B3230, Barnstaple to Ilfracombe road, appears to have affected the access routes into Bittadon. The proposal route, Bittadon Lane, was bridged over, with cattle creeps either side for the movement of livestock between points C – D. What used to be the continuation of Marwood Footpath No. 10 became the main access route into Bittadon, now recorded as a county road (R1409), from the new turnpike road, now the B3230.
- 1.5.8 All the 3 relevant Tithe Maps are second class and only evidence of tithe information. Both the West Down and Marwood maps show the proposal route between points A – B – C – D as a coloured '*public road*' whilst Bittadon includes the route between points D – E – F in plot 165, '*road*', part of Bittadon Barton. What is now the county road into Bittadon from the B3230 (R1409), is also included in the Barton as plot 160 – '*road*'. This different treatment is mirrored in the Finance Act records, with the section of the proposal route, Bittadon Lane, between A – B – C – D, being excluded from hereditaments, whilst the remainder between points D – E – F is included in hereditament 1 covering parts of Bittadon and Marwood parishes. It does not have any reductions for Marwood Footpath No. 19 or Bittadon Footpath Nos. 1 and 3, or what is now the county road, R1409 between Bittadon and the B3230.
- 1.5.9 The proposal route, Bittadon Lane, between points A – B – C – D – E – F, does not appear in the various Vestry and other historic highway authority records. This does not mean that the route could not be public, just that it was not repaired by the relevant parishes. An additional complication is the variation in the portrayal of the parish

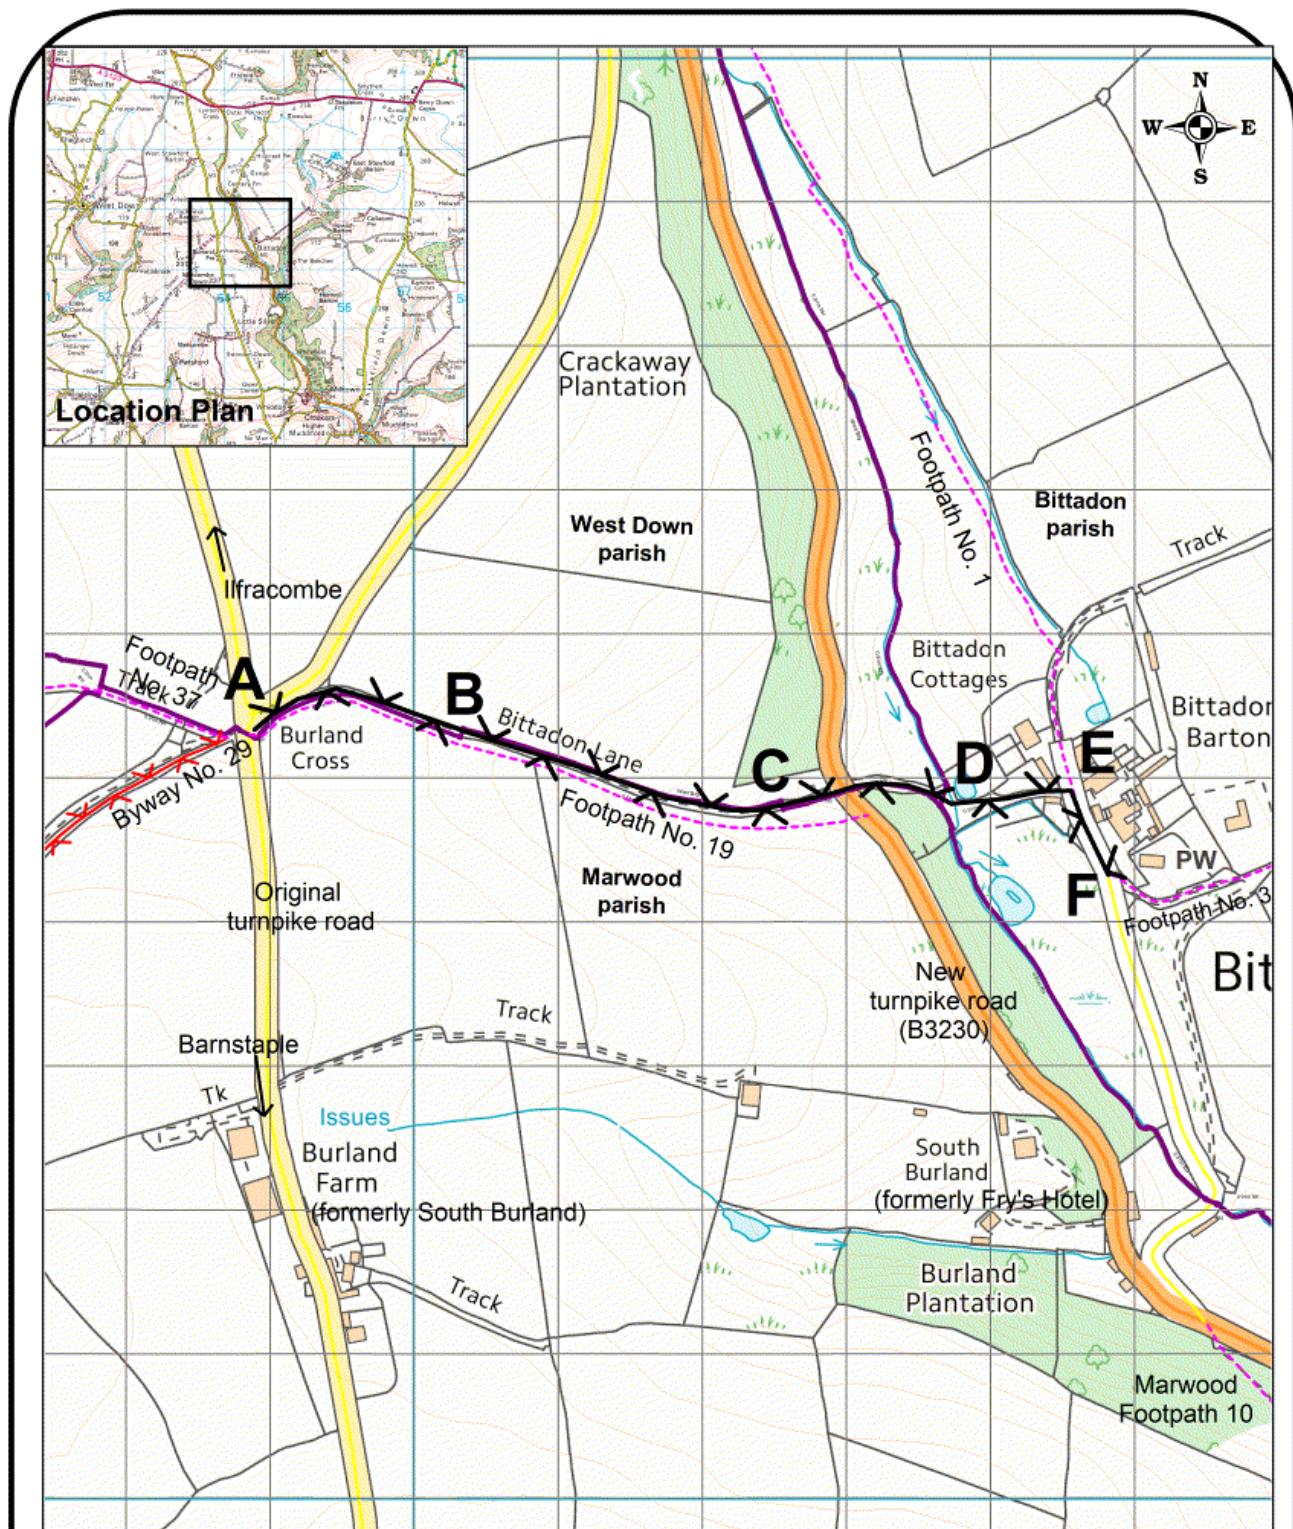

Agenda Item 6

boundary between West Down and Marwood in relation to the proposal route, Bittadon Lane, between points A – B – C – D. This variation and the subsequent dispute which arose in 1883-5 when the Ordnance Survey Boundaries Branch were carrying out a survey, highlights another reason why the proposal route may not appear in the historic parish and highways records.

- 1.5.10 Though the original Ilfracombe District Highway Board records and the majority of the local petty Session records have not survived, their meetings were reported on in the North Devon Journal. A number of reports featured the proposal route, Bittadon Lane, as well as the route between the new turnpike road (now the B3230) and Bittadon, now a county road (R1409). It appears that both routes were neglected and not considered by the local magistrates in 1863 to be '*parish roads*', roads repairable by a parish, particularly Marwood. It appears that neither Bittadon nor West Down parishes were summoned before the local magistrates for non-repair of these routes. When subsequently a landowner denied his liability to repair in 1883, the Highway Board did not take any enforcement action.
- 1.5.11 The reports of the Highway Board meetings show that many public highways in this area were repaired '*ratione tenurae*', by adjacent landowners and occupiers, and it appears that the proposal route, Bittadon Lane, may have been included in this category, though the evidence is not considered sufficient to demonstrate this. The Ordnance Survey Boundaries Branch records contain inconsistencies about whether repairs were done and by whom. This inconsistency is reflected throughout the documentary evidence.
- 1.5.12 Current landowner evidence dates back to the 1940s, with knowledge dating back to 1896. It documents use of the proposal route, Bittadon Lane, by local farmers and residents in the area with horse and cart, though a more recent landowner has challenged several people over the years.

1.6 Conclusion

- 1.6.1 No user evidence was submitted in support of the Schedule 14 application or received subsequently. The documentary evidence, whilst suggesting that the proposal route may have been considered a public highway two hundred years ago, is insufficient to demonstrate this, with much inconsistency between those records which have survived. Reports of the Petty Sessions showed that local magistrates weighed up evidence both in support and rebuttal of the proposal route, Bittadon Lane, as a public highway in the 19th century, and found that it was not. Key sources such as the records of the Bittadon Vestry, the Surveyors of Highways records, some Petty Sessions, and the Ilfracombe District Highway Board do not survive.
- 1.6.2 It is therefore recommended no Order be made to add a byway between points A – B – C – D – E – F, along Bittadon Lane, in respect of Proposal 1, as shown on drawing number EEC/PROW/11/67.

Definitive Map Review 2016-17 Parish of Bridgerule

Report of the Acting Chief Officer for Highways, Infrastructure Development and Waste

Please note that the following recommendation is subject to consideration and determination by the committee before taking effect.

Recommendation: It is recommended that it be noted that the Definitive Map Review has been completed in the parish of Bridgerule and no modifications are required.

1. Summary

The report examines the Definitive Map Review in the parish of Bridgerule.

2. Background

The original survey, under s. 27 of the National Parks and Access to the Countryside Act, 1949, revealed no public rights of way were recorded on the Definitive Map and Statement for Bridgerule Parish Council with the relevant date of 1 July 1958.

No Legal Event Modification Orders have been made for the parish.

The reviews of the Definitive Map, under s. 33 of the 1949 Act, which commenced in the 1970s but were never completed, produced no proposals for change to the map in the parish of Bridgerule at that time.

The Limited Special Review of Roads Used as Public Paths (RUPPS), also carried out in the 1970s, did not affect this parish.

3. Proposals

There are no proposals.

4. Consultations

The current Review began in October 2016 with a public meeting held in the Village Hall in Bridgerule. A full public consultation was carried out in February and April 2017 and the review was advertised in the parish and in the North Devon Journal.

The responses were:

County Councillor B Parsons	-	no comment
Torridge Devon District Council	-	no proposals
Bridgerule Parish Council	-	no comment
British Horse Society	-	no comment
Byways and Bridleways Trust	-	no comment
Country Land & Business Association	-	no comment
Open Spaces Society	-	no comment

Agenda Item 7

Ramblers' Association	-	no comment
Trail Riders' Fellowship	-	no comment

5. Financial Considerations

Financial implications are not a relevant consideration to be taken into account under the provision of the Wildlife and Countryside Act 1981. The Authority's costs associated with Modification Orders, including Schedule 14 appeals, the making of Orders and subsequent determinations, are met from the general public rights of way budget in fulfilling our statutory duties.

6. Legal Considerations

The implications/consequences of the recommendation(s) have been taken into account in the preparation of the report.

7. Risk Management Considerations

No risks have been identified.

8. Equality, Environmental Impact and Public Health Considerations

Equality, environmental impact or public health implications have, where appropriate under the provisions of the relevant legislation have been taken into account.

9. Conclusion

It is recommended that the Review be noted for Bridgerule parish.

Should any valid claim be made in the next six months it would seem sensible for it to be determined promptly rather than be deferred.

10. Reasons for Recommendations

To undertake the County Council's statutory duty under the Wildlife and Countryside Act 1981 to keep the Definitive Map and Statement under continuous review and to progress the parish by parish review in the Torridge district area.

Definitive Map Review Parish of Sparkwell

Report of the Acting Chief Officer for Highways, Infrastructure Development and Waste

Please note that the following recommendation is subject to consideration and determination by the Committee before taking effect.

Recommendation: It is recommended that no Modification Order be made in respect of the proposal to amend Bridleway No. 24, Sparkwell, and it be noted that the Definitive Map Review has been completed in the parish of Sparkwell and no modifications are required to be made.

1. Introduction

The report examines the Definitive Map Review in the parish of Sparkwell in South Hams District.

2. Background

The original survey under s. 27 of the National Parks and Access to the Countryside Act 1949 revealed twenty-one footpaths and four bridleways, which were recorded on the Definitive Map and Statement with a relevant date of 11 October 1954.

The review of the Definitive Map, under s. 33 of the 1949 Act, which commenced in the 1970s, but was never completed, produced no proposals for change to the map in the parish.

The Limited Special Review of Roads Used as Public Paths (RUPPS), also carried out in the 1970s, did not affect this parish.

The following agreements and Orders have been made and confirmed:

South Hams District Council Public Path Diversion Order 1975, Footpath No.12 Sparkwell
South Hams District Council Public Path Diversion Order 1982, Footpath No.12 Sparkwell
South Hams District Council Public Path Diversion Order 1982, Footpath No.12 Sparkwell
Devon County Council, Definitive Map Modification Order 1997 Bridleway No.35 Sparkwell
Devon County Council Public Path Diversion Order 1993 Footpath Nos. 9 & 10 Sparkwell

Devon County Council Bridleway No.41, Sparkwell and No.72, Shaugh Prior Public Path Creation Agreement 2017

Legal Event Modification Orders will be made for these changes, where necessary, under delegated powers in due course.

The current Review began in October 2016 with a public meeting held in the Sparkwell Village Hall, and was well attended by members of the public, the parish clerk and parish councillors, County Councillor John Hart and representatives from Wolf Minerals UK Ltd.

3. Proposals

One suggestion has been noted where there is an irregularity between the Definitive Map and Statement for the southern end of Bridleway No.24, Sparkwell. The details are discussed in Appendix 1.

4. Consultations

A public consultation was carried out in May 2017.

The responses were as follows:

County Councillor J Hart	-	no comment
South Hams District Council	-	no comment
Sparkwell Parish Council	-	no objection
British Horse Society	-	no comment
Byways and Bridleways Trust	-	no comment
Country Land & Business Association	-	no comment
NFU	-	no comment
Open Spaces Society	-	no comment
Ramblers' Association	-	no proposals
Trail Riders' Fellowship	-	no comment

5. Financial Considerations

Financial implications are not a relevant consideration to be taken into account under the provision of the Wildlife and Countryside Act 1981. The Authority's costs associated with Modification Orders, including Schedule 14 appeals, the making of Orders and subsequent determinations, are met from the general public rights of way budget in fulfilling our statutory duties.

6. Legal Considerations

The implications/consequences of the recommendation(s) have been taken into account in the preparation of the report.

7. Risk Management Considerations

No risks have been identified.

8. Equality, Environmental Impact and Public Health Considerations

Equality, environmental impact or public health implications have, where appropriate under the provisions of the relevant legislation, been taken into account in the preparation of the report.

9. Conclusion

It is recommended that no Modification Order be made in respect of the suggestion for modifying the Definitive Map in the parish of Sparkwell and that members note that the Definitive Map Review has been completed in this parish.

Should any further valid claim with sufficient evidence be made in the next six months, it would seem reasonable for it to be determined promptly rather than be deferred.

10. Reasons for Recommendations

To undertake the County Council's statutory duty under the Wildlife and Countryside Act 1981 to keep the Definitive Map and Statement under continuous review and to progress the parish by parish review in the South Hams District area.

Agenda Item 8

Appendix I To HIW/17/51

Background

A. Basis of Claims

The Wildlife and Countryside Act 1981, Section 53 (5) enables any person to apply to the surveying authority for an order to modify the Definitive Map. The procedure is set out under WCA 1981 Schedule 14.

Common Law presumes that at some time in the past the landowner dedicated the way to the public either expressly, the evidence of the dedication having since been lost, or by implication, by making no objection to the use of the way by the public.

The Highways Act 1980, Section 31 (1) states that where a way over any land, other than a way of such a character that use of it by the public could not give rise at common law to any presumption of dedication, has actually been enjoyed by the public as of right and without interruption for a full period of 20 years, the way is deemed to have been dedicated as a highway unless there is sufficient evidence that there was no intention during that period to dedicate it.

The Highways Act 1980, Section 32 states that a court or other tribunal, before determining whether a way has or has not been dedicated as a highway, or the date on which such dedication, if any, took place, shall take into consideration any map, plan, or history of the locality or other relevant document which is tendered in evidence, and shall give such weight thereto as the court or tribunal considers justified by the circumstances, including the antiquity of the tendered document, the status of the person by whom and the purpose for which it was made or compiled, and the custody in which it has been kept and from which it is produced.

The Wildlife and Countryside Act 1981, Section 53[3] [c] enables the Definitive Map and Statement to be modified if the County Council discovers evidence which, when considered with all other relevant evidence available to it, shows:

(i) that a right of way not shown in the map and statement subsists or is reasonably alleged to subsist over land in the area to which the map relates.

(ii) that a highway shown in the map and statement as a highway of a particular description ought to be there shown as a highway of a different description; or

(iii) that there is no public right of way over land shown in the map and statement as a highway of any description, or any other particulars contained in the map and statement require modification.

The Wildlife and Countryside Act 1981, Section 56[1] states that the Definitive Map and Statement shall be conclusive evidence as to the particulars contained therein but without prejudice to any question whether the public had at that date any right of way other than those rights.

1. **Suggestion 1: Bridleway No. 24, Sparkwell – Anomaly between the Definitive Map and the Definitive Statement**

To clarify the extent of the southern point of Bridleway No.24, Sparkwell in relation to its junction with the county road (highway maintainable at public expense) near Loughtor Corn Mill (Loughtor Mill) as described in the Definitive Statement and as shown between points A – B on drawing HIW/PROW/17/31.

The continuation over section B – C is in the administrative area of Plymouth City and outside of Devon County Council's highway obligation.

Recommendation: That no Modification Order be made to amend the Definitive Map in respect of Bridleway No. 24.

1.1 **Background**

- 1.1.1 During the course of the current Definitive Map review, existing public rights of way in the parish were checked and the line of Bridleway No. 24 appeared to stop short of the county road at Loughtor Corn Mill. The Definitive Map shows the bridleway apparently stopping approximately 130 metres north of the county road, just south of The Lodge by Binnicliff Wood at point A. Bridleway No.24 was formerly in the administrative parish of Plympton St Mary and is now in the administrative district of the South Hams.

1.2 **Description of the route**

- 1.2.1 This path is a bridleway starting from Loughtor Mill Green Road opposite Loughtor Mill and continues in a northerly direction along a lane, known as Park Lane to join the minor county road known as Tweenway Road in the parish of Sparkwell.

1.3 **Documentary Evidence**

- 1.3.1 Definitive Map Statement: - Bridleway No.24, Sparkwell - relevant date 11 October 1954

The Definitive Statement for this route states:

Original Designation: Parish of Plympton St Mary

Current Designation: Parish of Sparkwell

From: Loughtor Mill Green Road

To: Tweenaway Road

Description: This path is a Bridleway. It starts at Loughtor Mill Green Road (Unclassified County Road) opposite Corn Mills, and proceeds north along a Private Accommodation Road (not repairable by the inhabitants at large) until it joins Tweenway Road (Unclassified County Road)

1.3.2 Highway records

Plympton District Highways Handover maps up to 1947.

Agenda Item 8

The 6inch map sheet 118 S.E. shows the route A - B - C as coloured blue from the word "Lodge" to the county road, coloured yellow, at Loughtor Corn Mills.

The mileage Road Book that accompanies the handover maps also shows sheet 188.SE road 20 as "From Cl.III 36 to Lodge Binnicliiff Wood, 0.10" in the remarks section it records it as a "Cul – de – Sac".

This indicates that the route A – B – C was considered to be a highway maintainable at public expense by Plympton Rural District Council.

1.3.3 Devon County Council Land Charges Map.

The Land Charges department at County Hall hold the public records of Devon's highways maintainable at public expense. These records indicate that the section A – B is coloured blue, indicating a highway maintainable at public expense. There is no indication that this section of public highway has been stopped up.

2. Rebuttal Evidence

No rebuttal evidence has been received.

3. Discussion

There is no provision in statute for deciding whether, in the case of conflict, the map or statement takes precedence. Where there appears to an irregularity between the map and statement, the Definitive Map Statement can provide clear written evidence of the line of the right of way in relation to other described features.

Whilst assessing the documentary evidence for this suggestion, it became apparent that there was a gap between the south end of Bridleway No.24, Sparkwell and the county road at Loughtor (Corn) Mill. Initially it was considered that the Definitive Map had been drawn in error and did not reflect the bridleway continuing south to join the county road at Loughtor Mill.

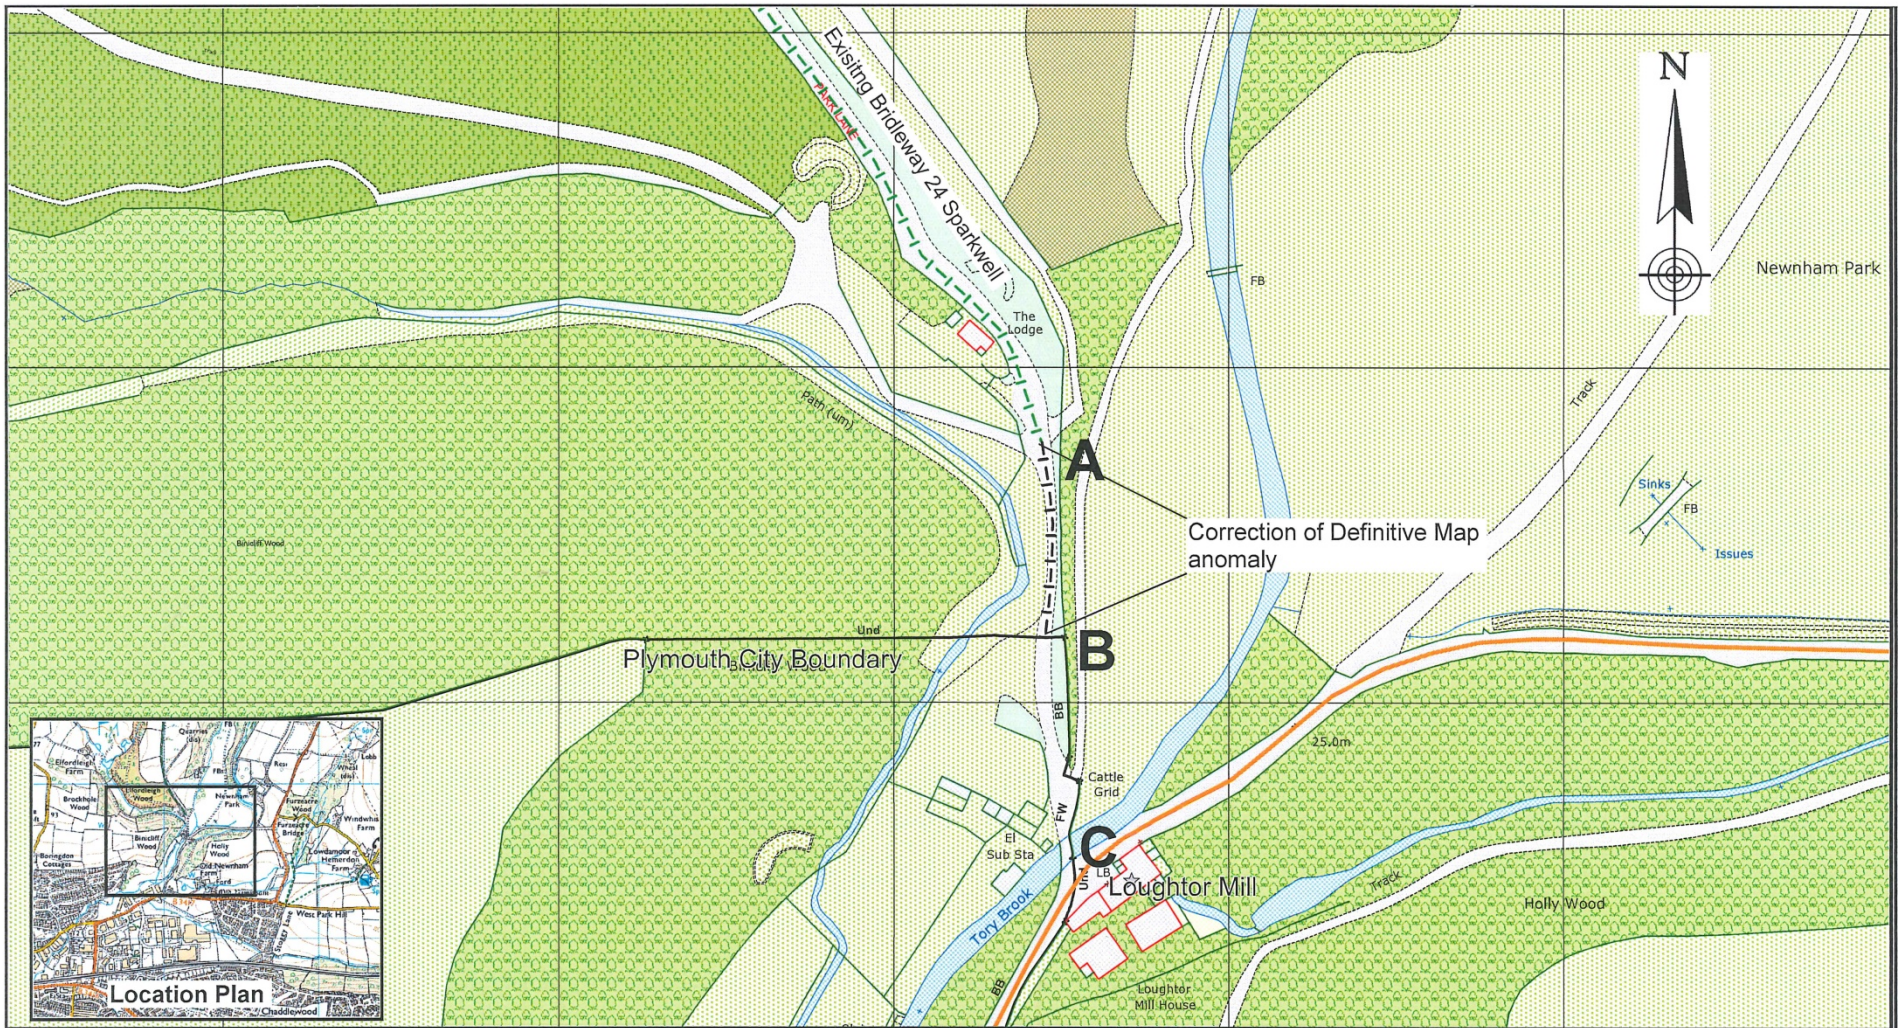

However, the Definitive Statement for Bridleway No.24, Sparkwell is precise in detailing the junction of the bridleway and the unclassified county road, Loughtor Mill Green Road which is clearly described as opposite to the Corn Mills, located on the county road to Plympton.

On examination of handover maps for Devon, in particular Plympton Rural District Council, the section A – B – C on the plan HIW/PROW/17/31 corresponds to the section of public road called Loughtor Mill Green Road. This is reflected in the Mileage Book recording the additional mileage of the road and that it was a cul –de – sac. These records indicate that the route A – B – C was recorded on successive highway maintenance records and is considered to be a county road. The section A – B in Sparkwell has been omitted in error from the County Council's digitised Land Charges records.

4. Conclusion

It is concluded that the southern end of Bridleway No. 24, Sparkwell joins an unclassified county road. It is recommended therefore, that no Modification Order be made to amend the Definitive Map in relation to this suggestion.

In addition the County Council's digitised Land Charges records will be amended to reflect the section A- B as a highway maintainable at public expense and Plymouth City Council will be advised of the same findings for the section C – B.
