## **Annual Local Waiting Restriction Programme**

Report of the Chief Officer for Highways, Infrastructure Development and Waste

***Please note that the following recommendations are subject to consideration and determination by the Committee before taking effect.***

**Recommendation:** It is recommended that:

- (a) *work on the annual waiting restrictions programme process for 2018/2019 is noted;***
- (b) *the recommendations contained in Appendix I and II to this report are agreed and subject to consultation with local Members on the details, the proposals are advertised.***

### **1. Background**

The County Council regularly receives requests for waiting restrictions to be introduced or amended. These can be difficult to deliver due to resource and funding pressures which can then have a negative impact on the County Council's relationship with local communities.

Recognising this difficulty, a managed process has been developed to deliver an Annual Local Waiting Restriction Programme for each HATOC area for the funding and delivery of waiting restriction schemes.

The 2017/18 programme dealt with nearly 400 proposals across Devon. These were mainly amendments to Yellow Lines and Limited Waiting, thought to be non-controversial, which had been requested by communities or by local Highway Officers.

Building on the success of this process, officers propose that a further programme is developed for 2018/19 to again include minor aids to movement improvements such as drop crossing, footway improvements and bollards.

### **2. Proposal**

Cabinet has allocated an amount of £100,000 countywide from the On-Street Parking Account to this process in 2018/19 which equates to an amount of £12,500 to each HATOC area.

Approval is sought for the 2018/19 programme for this Committee's area. It is proposed that the schemes identified in Appendices I and II form the programme.

Following confirmation of the detail with the locally affected County Members and Chair of HATOC the proposals will then be advertised.

# Agenda Item 5

## **3. Consultations**

Following advertisement:

- Proposals which do not attract objections can be implemented without the need to report back to Committee.
- Proposals which attract minor objections should be determined under delegated powers by the Chief Officer in consultation with the Local Member and the Chair of HATOC.
- Proposals attracting significant objections will be reported to the next available HATOC.

## **4. Specific Proposals**

Specific Waiting Restriction Proposals are listed in Appendix I with plans of the proposals shown in Appendix II.

There are currently no proposals for minor aids to movement improvements for this year's programme.

## **5. Financial Considerations**

The total costs of the scheme are contained within a countywide budget of £100,000 which has been allocated from the On-Street Parking Account.

There will be a cost to the Council in advertising a new Traffic Order for each Committee Area, this will be approximately £1,500. In addition, the costs of any changes to signing or lining will be attributed to that Order.

## **6. Environmental Impact Considerations**

The proposals are intended to rationalise on-street parking and improve mobility and access within the district and are designed to:

- Encourage turnover of on-street parking to benefit residents and businesses.
- Enable enforcement to be undertaken efficiently.
- Encourage longer term visitors to use off street car parks.
- Encourage commuters to make more sustainable travel choices eg Car Share, Public Transport, Walking and Cycling.
- Assist pedestrians and other vulnerable road users in crossing the highway.

The Environmental effects of the scheme are therefore positive.

## **7. Equality Considerations**

There are not considered to be any equality issues associated with the proposals. The impact will therefore be neutral.

## **8. Legal Considerations**

The lawful implications and consequences of the proposal have been considered and taken into account in the preparation of this report.

When making a Traffic Regulation Order it is the County Council's responsibility to ensure that all relevant legislation is complied with. This includes Section 122 of the Road Traffic Regulation Act 1984 that states that it is the duty of a local authority, so far as practicable, secures the expeditious, convenient and safe movement of traffic and provision of parking

# Agenda Item 5

facilities. It is considered that the proposals comply with Section 122 of the Act as they practically secure the safe and expeditious movement of traffic in the South Hams District.

## 9. Risk Management Considerations

There are thought to be no major safety issues arising from the proposals.

## 10. Public Health Impact

There is not considered to be any public health impact.

## 11. Reasons for Recommendations

The proposals rationalise existing parking arrangements within the Mid Devon District by:

- Encouraging turnover of on-street parking to benefit residents and businesses.
- Enabling enforcement to be undertaken efficiently.
- Encouraging longer term visitors to use off-street car parks.
- Encouraging those working in the town make more sustainable travel choices eg Car Share, Public Transport, Walking and Cycling.

The proposals contribute to the safe and expeditious movement of traffic in the Mid Devon District and therefore comply with S 122 of the Road Traffic Regulation Act 1984.
