Dear Sir/Madam,

On 15 January 2020 Natural England submitted a coastal access report for improving coastal access between Combe Martin and Marsland Mouth to the Secretary of State for Environment, Food and Rural Affairs. The reports set out Natural England's proposals for improving coastal access under the Marine and Coastal Access Act 2009. The report is available under the link [here](#) or at [King Charles III England Coast Path from Combe Martin to Marsland Mouth: comment on proposals - GOV.UK \(www.gov.uk\)](#).

The Secretary of State has decided to approve the proposals regarding CMM2 and CMM4 and the decision is outlined in the notice which is available [here](#) or at [Coastal access: Section 52 notice for Combe Martin to Marsland Mouth - GOV.UK \(www.gov.uk\)](#).

The right of access to the approved stretch of coast does not come into effect at this stage. Natural England will be working with the local authority to establish any infrastructure works before an Order is made by the Secretary of State under the 2009 Act to bring the rights into effect.

Yours faithfully,

Access and Engagement with Nature Team
