

Devon Children's Social Work Quality Assurance Framework

Report of: September 2016

1.0 Activity and Performance Information

Population p		tion profile for De				fice of National
	0	1-4	5-9	10-15	16-17	18-25
England	662,977	2,771,703	3,357,463	3,612,971	1,272,742	5,674,723
Devon	7,005	31,596	40,769	46,422	16,799	73,900
Age Band as	a Percentag	ge of Total Popula	tion			
England	1.2% ⇩	5.1% 介	6.0% ①	6.6% ①	2.4% ⇩	10.4% 仓
Devon	0.9% ₽	4.1% ⇩	5.2% 企	6.1% ⇩	2.2% ⇩	9.5% ①

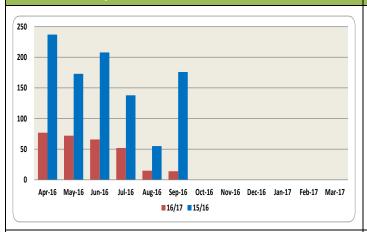

The total Devon CIN for Sept-16 is 5,149 which includes LAC 710, CP 482 and Finance only cases 252 and 1,046 Disabled Children's Services (DCS). The rate of CIN cases 14/15 for Devon was 402.7, our Statistical Neighbours was 327.5 and the National rate was 337.3 This means we have approximately 75 per 10,000 (c 1000 children) more children involved with social care than our Statistical Neighbours. Team Managers have focused on reviewing all the cases that are open to social care at the CIN level and this has resulted in the trend for the first quarter showing a steady decline to bring us in line with stat neighbours and national.

Numbers of CIN cases:

The MASH development plan includes a number of improvement activities directly related to reducing inappropriate MASH enquiries and ensuring that those enquiries which do get progressed to children's social work are at the correct statutory involvement level.

September 2016 figures show a continued improvement of challenge at the front door. Multi agency awareness raising events are planned on a monthly basis from December 2016 to cover the whole journey of the child.

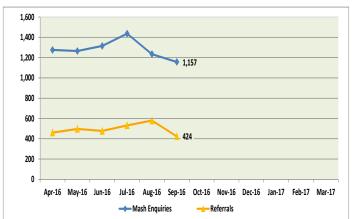

2) Number of DAF1s in Holistix

DAFs	Apr-16	May-16	Jun-16	Jul-16	Aug-16	Sep-16
14/15	53	108	96	112	15	120
15/16	237	173	208	138	55	176
16/17	77	72	66	52	15	14

The number of DAF's recorded on Holistix during the same period 16/17 shows a significant month on month reduction compared to 15/16. The Alliance has reinforced its commitment to Holistix and new EH tools are being piloted. These are yet to go live, so do not impact on the current data.

3) Number of MASH Enquiries and Referrals in the month

	Apr-16	May-16	Jun-16	Jul-16	Aug-16	Sep-16
Mash Enquiries	1,275	1,265	1,315	1,436	1,234	1,157
Referrals	461	497	477	532	579	424

This gap between enquiries and referrals suggests we need to strengthen understanding of thresholds, or confidence in decision making to hold risk outside of the statutory service.

Work is underway in MASH to reject inappropriate enquiries that do not meet threshold. The September percentage of MASH outcomes of referral to social work teams is 31%. MASH are focussing on the conversion rate to reduce inappropriate hand on to social work teams, recognising that there are still a higher number of accepted cases than is appropriate due to volume of enquiries against numbers of social work staff to address them. Of the 424 referrals made 359 are for single assessment, with the remainder including Private Fostering and referrals to ICS.

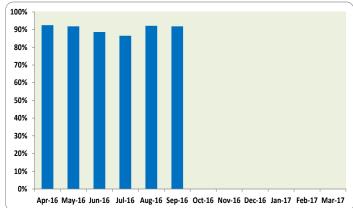

4) Percentage of social care referrals that are re-referrals within 12 months

Target	Apr-16	May-16	Jun-16	Jul-16	Aug-16	Sep-16
25%	20.6%	21.5%	23.5%	19.5%	23.1%	22.4%

The rate of children re-referred within rolling 12 months remains at approximately a fifth of all children. For 15/16 Devon's rate 23.4% was less than Stat Neighbours 24.6% and the National rate 24%

5) % of Referrals with a Single Assessment

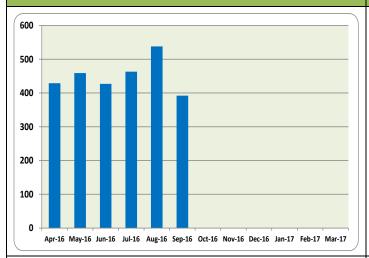

Apr-16	May-16	Jun-16	Jul-16	Aug-16	Sep-16
92.5%	91.8%	88.6%	86.5%	92.1%	91.8%

The rate for referrals that have a Single Assessment outcome is 91.8%. We aim to obtain benchmarking data from our Statistical Neighbours for comparison as this statistic is currently not reported publically. However this appears high particularly when the high proportion of SA resulting in no service is considered, suggests better screening and signposting could be undertaken with partners.

Case Closed Outcome

It is anticipated that there will be a correlation between the reducing numbers of enquiries and a reduction in those cases which progress to a 'case closed' outcome as there will be fewer children in the system who could be helped outside of statutory services. This work is being supported by the development of call audits in the MASH to quality assure the decision making.

6) Number of Single Assessments Starting

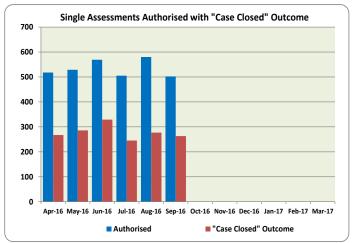

Apr-16	May-16	Jun-16	Jul-16	Aug-16	Sep-16
429	459	427	463	538	392

For Sept-16 the number of SA's starting has fallen to 392. The overall 15/16 total (7,543) averaging 628 per month reduced by 7.9% compared to the previous year 14/15 (8,187). The 16/17 average to date is 451 which indicates a continued

The 16/17 average to date is 451 which indicates a continued reduction in Single Assessments starting compared to the monthly average of 628 in 15/16.

7) Cases closed at end of Single Assessment

	Apr-16	May-16	Jun-16	Jul-16	Aug-16	Sep-16
Authorised	518	529	569	505	580	502
% "Case Closed" Outcome	51.5%	54.1%	57.8%	48.5%	47.8%	52.4%

The rate for SA with "Case Closed" outcome has increased in Sept-16 to 52.4%.

Work is planned to examine the points in the system where information gathering would be most effective, in order to reduce the numbers of single assessments that result in closure.

High proportion ending without a service suggests inadequate screening.

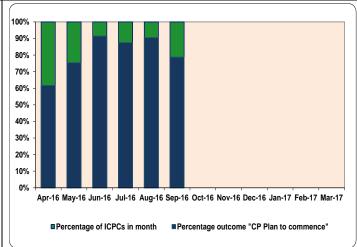

8) Number of Section 47 Enquiries

Apr-16	May-16	Jun-16	Jul-16	Aug-16	Sep-16
156	144	145	132	149	130

In Sept-16 the number of S47 enquiries decreased to 130 which is below our Statistical Neighbours for 15/16 of 141.

9) Proportion of ICPC resulting in Child Protection Plans to

	Apr-16	May-16	Jun-16	Jul-16	Aug-16	Sep-16
Number of ICPCs in month	47	65	35	48	63	52
Number with "CP Plan to commence" outcome	29	49	32	42	57	41
No Outcome Recorded	0	0	0	0	0	1
Percentage outcome "CP Plan to commence"	61.7%	75.4%	91.4%	87.5%	90.5%	78.8%
Percentage of ICPCs in month	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%

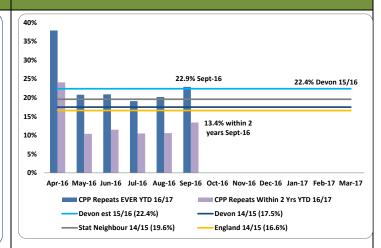

Slightly higher number of children where the decision not proceed with a CP plan was made. This may be insignificant but need to monitor this to ensure this is not a rising trend. High numbers may indicate poor inter agency understanding of the significant harm threshold.

The conversion rate from ICPC to plan suggests that the right children are being considered but the high number of children subject of a plan for three months or less may indicate risk adverse practice that requires further scrutiny.

10) Rate/10,000 of Children Subject to a Child Protection Plan

800 700 600 500 400 300 200 100 16/17 —15/16 --- Stat Neighbour — England — Target

11) % of Repeat CPP's in the year

36.9%	36.9%	36.9%	36.9%	36.9%	36.9%
	679 47.8% 610 53.7% 577	679 667 47.8% 46.9% 610 610 53.7% 53.7% 577 577	679 667 603 47.8% 46.9% 42.4% 610 610 610 53.7% 53.7% 53.7% 577 577 577	679 667 603 514 47.8% 46.9% 42.4% 36.0% 610 610 610 610 53.7% 53.7% 53.7% 577 577 577 577 577	679 667 603 514 534 47.8% 46.9% 42.4% 36.0% 37.4% 610 610 610 610 610 53.7% 53.7% 53.7% 53.7% 577 577 577 577 577 577

	Apr-16	May-16	Jun-16	Jul-16	Aug-16	Sep-16
No. of Children Re-Reg in rolling Yr	11	16	23	29	42	57
No. of CPP starts	29	49	32	42	56	41
Cumulative 16/17 CPP starts	29	78	110	152	208	249
CPP % Re-Reg YTD 16/17	37.9%	20.8%	20.9%	19.1%	20.2%	22.9%
CPP Re-Reg within 2 Yrs YTD 16/17	24.1%	10.4%	11.5%	10.5%	10.6%	13.4%

The number of children subject to a Child Protection Plan in Sept-16 was 482.

The rate of children subject of a CP is 33.8% per 10,000 of the under 18 population in Devon (Mid-Year 2015: 142,591).

The latest comparator data 14/15: for Statistical neighbours 51.1 per 10,000, for South West, 54.3 and for England, 53.7 Overall, numbers of children subject of a plan continues to decline and we are now below the target for the year. Audit activity to test thresholds to be undertaken by IRU

This chart looks at how many children have started a CPP in the month and whether they have ever had a CPP before between ages 0-18. Each month the data is reviewing all the CPP starts from Apr-16 cumulatively and by the end of 16/17 the data will show the % of repeat CPP's EVER for 16/17, which is the figure reported in the CIN census. For 15/16 this was 22.4% for Devon, 19.6% Stat Neighbours and currently 22.9% for Devon to Sept-16. The rate for Repeat CPP's within 2 years is 13.4% and is an important factor to consider.

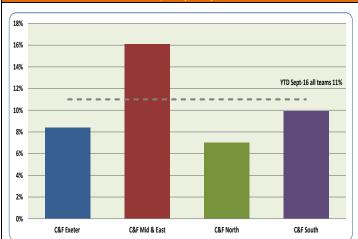

The number of children subject of a plan continues to decline following management action earlier in the year to ensure more thorough assessment pre-conference and robust application of thresholds. An audit of cases will be undertaken during the autumn to ensure decision making is appropriate.

The number of children being subject to repeat or subsequent CPPs is high and suggests ineffective planning or decision making to end conferences without change having been fully tested. An audit will be undertaken to information specific management action.

12. Team breakdown of children ending CPP within 3 months of starting CPP's.

		Apr:	2016			May:	2016			Jun 20	016			Jul 2	016			Aug 2	2016			Sep:	2016			Grand	Total

13) CPP Ending within 3 months of CPP starting Apr to Sept 16/17 (11%)

An 16	May 16	lun 16	Jul 16	Λυσ 16	6 Sep-16	YTD	
Ap-10	iviay-10	Juli-10	Jul-10 Aug	Jui-10	Aug-10	3eh-10	Ave
19%	2%	5%	15%	22%	6%	11%	

Sept-16 shows a decrease in CPP's ending at 3 months, with an average of 11% Apr-16 to Sept-16. The high % within Mid and East will need to be monitored to understand why it is out of line with other area's.

14) Number of Looked After Children

Apr-16	May-16	Jun-16	Jul-16	Aug-16	Sep-16
699	696	708	718	711	710

Sep-16 shows 710 Looked After Children which is below our Statistical Neighbours however more work to be done in preventing accommodation.

15) Percentage of Looked After Children with a Visit Completed in the Previous 6 Weeks

Apr-16	May-16	Jun-16	Jul-16	Aug-16	Sep-16
80.9%	80.3%	84.3%	84.1%	89.0%	89.5%

Further improvement needed across the county with focus on particular teams. There is a strong focus on this with Area Managers locally leading on improvement.

16) 3+ Placement Moves by Team Sept-16

For Total 710 LAC	3+ Place	ements
FOI TOTAL 710 LAC	Num	Out-turn
Children & Families	20	8.0%
Permanency &	23	6.2%
Initial Response	1	12.5%
CwD	1	1.6%
Other	0	0.0%
	45	6.3%

Historically Devon has had a high number of placement moves. More detailed analysis shows that these moves relate mainly to 15, 16 & 17 year olds. The percentage of children with 3 or more placement moves in 2015/16 was 12.9% which was an improvement of just under 2% from the previous year (14.9%).

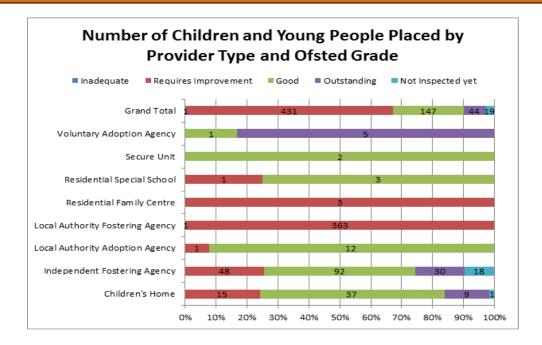

To Sept-16 the percentage of LAC with 3 or more moves is 6.3% however, this is a cumulative figure throughout the year so would be antipicated that this would increase as the year continues. This equates to 45 children having had 3 or more moves Apr-16 to Sept-16. There is a placement stability action plan with expected milestones which will ensure that this figure decreases. The school holidays are are a time of significant change and challenge for carers ,children and you. Additional support was given internally to carers to try and minimise the expected increase during the school holidays.

17) LAC 3+ Placement Information

% of Children with 3+ Placements in financial year to date

2014/15	2015/16	to Sept-16	16/17 Year Forecast
14.9%	12.9%	6.3%	10.8%

Weekly data available and planning support for Children & Young People where stability is an issue.

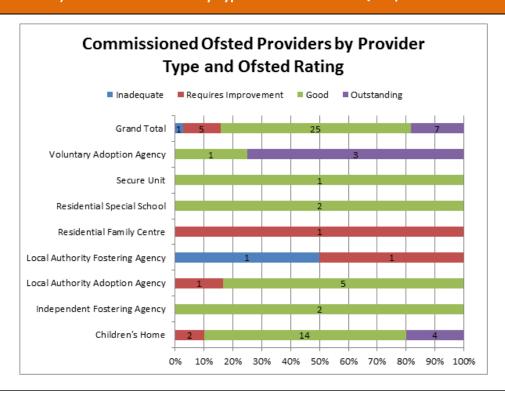

The above chart shows the data for Devon's Looked After Children, including those placed out of county.

Note: in- house adoption and fostering services are now judged based on the overall judgement of the LA's single inspection framework. In Q2 16/17 31% of the providers inspected are good (147), or outstanding (44)

The data indicates 69% (431) are in the category 'requires improvement however some of our larger fostering providers, who have re-registered due to expansion, have not yet been inspected and graded therefore this figure is likely to improve in the near future.

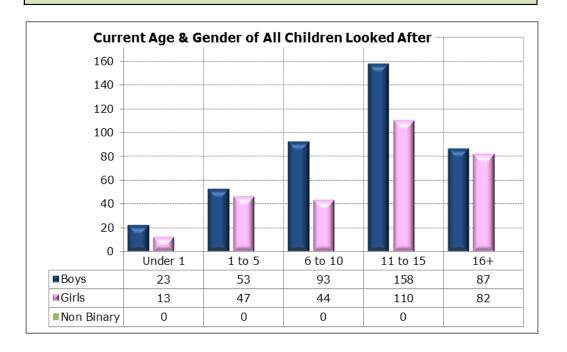

19) Number of Providers by Type and Ofsted Grade Q2 16/17

78% of total (73) children's homes were judged as Good (45) or Outstanding (12) in Q2 16/17. A number of children's homes that were Inadequate or Requires Improvement have now moved to good following QA work with the Children's Commissioning Team. 3 children's homes were judged as inadequate, LA maintained special schools with childrens home provision and have robust action plans in place to improve.

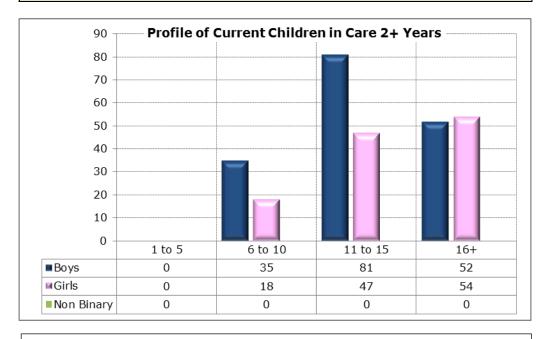

20) n=710

The Average Age of a Child in Care is: Boys 11.2 Years, Girls 11.7 Years

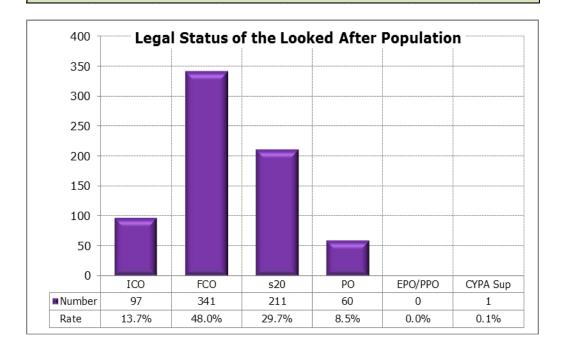

21) n=287

The Longest Current Period of Care of Any Child is: 16.4 Years

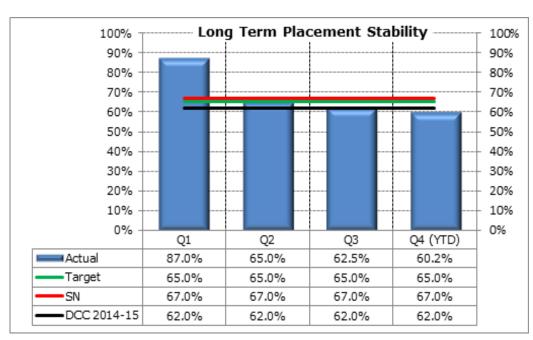

High proportion of aged 11-15 in care, greater than 2 years.

The Rate of LAC Under Section 20 Nationally in 2013-14 was 27.9%

23)

S20 presents a risk given potential for drift and challenge on a human rights basis.

Close focus to ensure progression to permanence.

The number of children who have remained in placement needs to be improved. This is currently below statistical neighbours and national averages. Permanency oversight panels also tracking panels are also tracking the longer term placements.

24) Adoption Scorecard

DEVON COUNTY COUNCIL ADOPTION SCORECARD

Devon County's Adoption Population	2016-17 YTD	Percentage				•		d: Average Ti		ors	
lumber of Children adopted	25	100%		600		Devoi	1 2014-17	Quarterly Pe	rtormance		
ged 5 and Over	8	32.0%			547						
lged Under 5	17	68.0%			545	514					
No. of adopted children in sibling groups	15	60.0%		500 -		***************************************			487		
Number of children with a decision to be placed for Adoption	68	-				487	487	462	476		
Number of children with a placement order	58	85.3%		400 -				.02			
No .of children in sibling groups	35	51.5%									
Number of children matched to adopter	30	51.7%		skı							
Number of children matched & placed with adopter	25	43.1%		900 -							
Number of children whose decision to be placed for adoption has been rescinded	6										
Number of children ending care due to Special Guardianship order	22	-		200 -				178	4-4		
Children Looked After and Adoption Performance measures	DEVON (2014-17)	SN average (2012-15)	England average (2012- 15)		153	167	168		171		
Adoption scorecard A1: time between child entering care and placement for adoption	476 days	517 days	593 days	100 -	152	121	121	121	121		
Adoption scorecard A2: time between receiving court authority to place a child and deciding on a match	171 days	152 days	223 days								
Adoption scorecard A3: children waiting less than 16 months between entering care and placement for adoption (NB: measure reduced from 18 months previosuly reported)	63.6%	n/a	47%								
Adoption 1: Percentage of looked after children who ceased to be looked after who were adopted	14.8%	16%	14%	0 +	2011-14	2012-15	2013-16	2014-17 Q1	2014-17 Q2	2014-17 Q3	2014-17 Q
Adoption 2: Percentage of looked after children who ceased to be looked after because of special quardianship order	11.5%	10%	10%			— Devon	\1 ······ Targe	3 Year Average	A2 ······ Targe	t A2	

The Q2 figures continue to show positive work being undertaken in the adoption service to improve timescales for children. An additional tracker has been put in place by management systems to support the A2 indicator which is evidencing signs of improvement.

The children who wait are those who are older and are deemed difficult to place and have longer transitions. Good progress can be seen in the number of children who are placed in sibling groups (60%) and this specific work to support these children is ongoing. The figure for % of children adopted has continued to exceed the English average showing a positive trajectory from last year's figures (12%) . The numbers of children gaining permanence through SGO's is also above statistical neighbours and the English average.

Children's Social Care Workforce Profile to September 2016

25) Worker Case Allocation and FTE Breakdown by Service and Team

Staff names in red text denotes 'Agency Staff'

Minus staff shown as on long term sick leave or maternity

In 'Current FTEs - Caseload Adjustment*' figures ASYE's and NQSW's can only carry a 60% caseload and therefore a full time (1 FTE) ASYE or NQSW is adjusted to be 0.6 FTE

All Team Managers and Assistant Team Managers are excluded from caseload calculations, i.e. they are not case-holding. In the Private Fostering team the Manager is included and is said to be case-holding.

Cases that have not been assigned to a team will be considered to be allocated to the team that their main caseworker is a member of.

^{*} FTE Caseload Adjustment = Family Practitioners only counted in P&T teams, ASYEs throughout adjusted to be 0.6 of their FTE for caseload purposes.

The average caseload is at 19.8

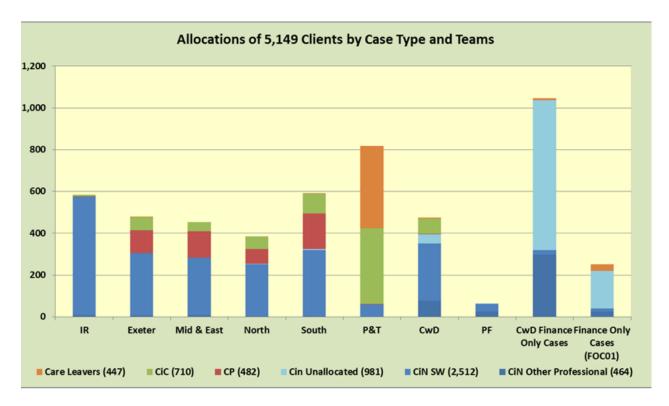

There is variation in some service areas e.g.

24.1 in South, 20.7 in North, 20.1 in Mid/East, 18.9 in Exeter, 16.9 in P&T, 20.7 in IR and 20.7 in DCS.

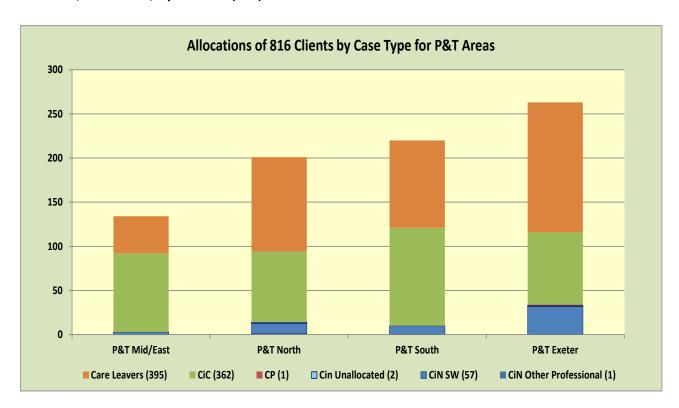

There is also wide discrepancy in team sizes. Work is underway to address this and ensure equity.

Allocation generally remains at a very high level. The proportion of permanent staff continues to increase.

26. Allocations; Children in Need, 3,957 (includes 1,046 DCS finance, 252 Finance only) plus, CP (482) and Children in Care (710), Total 5,149 and Care Leavers (447) shown for information.

27. Allocations; P&T teams, Open Cases (818).

3. Internal Case Audits

The overarching aim of the audits is to improve the quality of practice and outcomes for children and young people. The audit considers the quality of the information and recording on the young person's file, the arrangements for the audit include discussion with the Social Worker, the quality of the decision making process, risk assessment and analysis. Accordingly, the scoring system above reflects this. Judgements are: (1) No or few standards met. (2) Some standards partially met. (3) Some standards met in full. (4) Many standards met in full. (5) All standards met in full or exceeded. The charts below show the cases that meet standards 3, 4 and 5.

CASE AUDITS: CHILDREN IN NEED

Of the 47 internal audits completed during Sept. 2016, 16 relate to Children in Need.

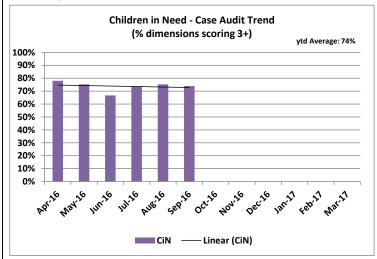

% judged as 'some', 'many' or 'all standards met in full or exceeded' Sept. 2016 **Audit Standards** No's 1a: Management scrutiny/oversight 14 88% 14 2: Experience of child/young person 88% 10 3: Practitioner contact 63% 12 75% 4: Assessment & needs analysis 5: Planning for children 10 63% 6: Recording and report writing 11 69%

Number of audit dimensions scored 96 Number of audits for CiN cases 16 Overall % judged 'Acceptable' or better 74%

3+ scores increase for standard 1a, 2 and 4, and decrease for standards 3. 5 and 6.

Overall % 3+ scores decrease 1% compared to Aug 16.

CiN case audits completed since April 16 show a gradually levelling trend in terms of the % of audit dimensions scoring 3+ (acceptable or better).

Year to date % of 3+ scores is 74%.

Sept16. is comparable with the year to date average for 3+scores.

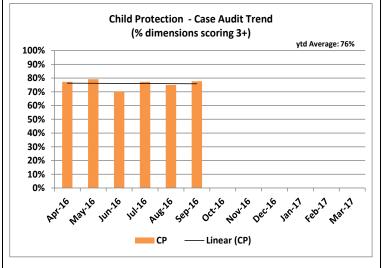

CHILD PROTECTION

Of the 47 internal case audits completed during Sept. 2016, 20 relate to Child Protection cases.

3+ scores for standard 2 below Aug 16. Standards 1a, 3, 6 are above Aug 16.

Overall % 3 scores up **25%** for a small sample.

Year to date % of 3+ scores is 74%.

Sept. is 1% above the year to date average of 3+ scores.

Parent / Carer Feedback Forms:

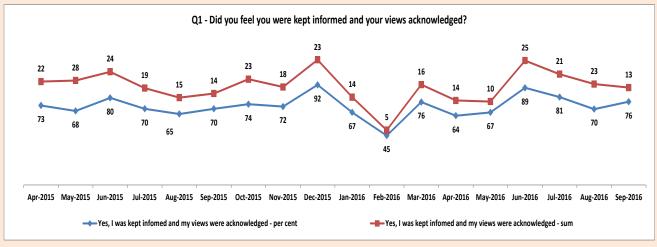

- 17 feedback forms for 27 individual children and young people were received in September 2016 which is 16 forms less than August.
- The feedback covers 14 individual Social Workers.

Involvement indicators (respect & courtesy; support; kept informed & views acknowledged; agreement with outcome)

- 82% of respondents in September, report positive feedback against all four involvement indicators compared to 80% for August.
- 8 respondents reported positive feedback with parents/carers reporting they were very appreciative of the support they received.

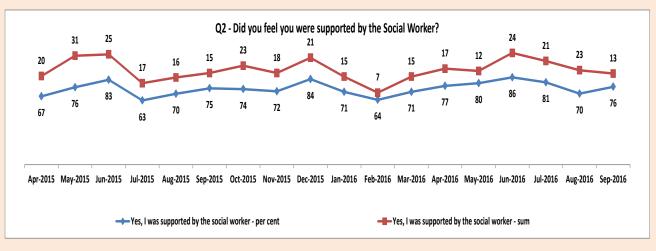

Q1 - Did you feel you were kept informed and your views acknowledged?

- 13 (76%) of respondents reported they were kept informed and their views acknowledged, an upturn of 6% compared to August (70%).
- All respondent completed this indicator.

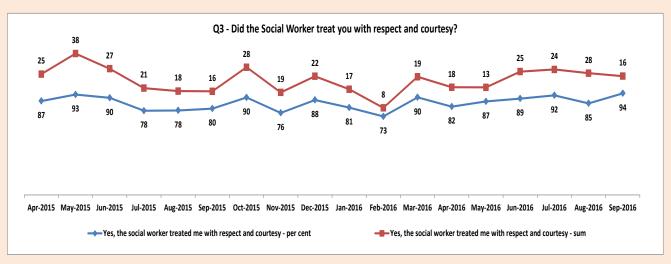

Q2 - Did you feel you were supported by the Social Worker?

- 13 (76%) of respondents reported that they felt supported by their social worker, an upturn of 6% compared to August (70%).
- All respondents completed this indicator.

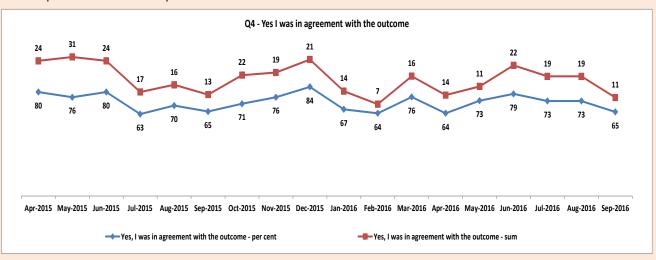

Q3 - Did the Social Worker treat you with respect and courtesy?

- 16 (94%) of respondents reported they felt their social worker treated them with respect and courtesy, an upturn of 9% compared to August (85%).
- All respondents completed this indicator.

Q4. Were you in agreement with the outcome?

- 11 (65%) of respondents reported they agreed with the outcome. A down turn of 8% compared to August (73%).
- 3 respondents did not complete this indicator.

 There is an inevitable lag between case closure activity and receipt of feedback forms from families, so reporting timescales mean that the information analysed in section 3.1 is based on all forms received in the month rather than all cases closed in that month.

"Key Themes"

 Lack of information and communication remain a key factor for negative feedback.

Recommendations:

- Look at alternative options to increase parent carer feedback.
- Investigate the number of cases "unclassified" on closure.
- Allocate resources to overhaul forms and integrate with wider SMS QA systems and qualitative measures.

What Parents & Carers said

"SW treated child very fairly and with the best interests of the child". "Thank You"

"We were pleased to see the matter being dealt with so quickly and efficiently".

"We have been well supported with YSMART & CAMHS and continue to engage with these services".

"The SW was fantastic and very professional".

"Excellent support and SW was always pleasant".

"Latest SW treated with me respect".

"Latest SW treated with me respect".
"SW was brilliant".

"Give more time to look through evidence"
"SW not seen, nothing has changed, case closed".
"Social Services ignored my views".
"Report had errors and took a long time".
"We wish things hadn't turned out the way they did but we know it was out of the SW hands".

13 of 17 respondents provided comment.

** INDEPENDENT REVIEW UNIT **

Timeliness of Social Worker Reports for CiC Reviews

169 IRU monitoring reports for Children in Care received for September.

Changes of Social Worker since last CiC Review

Of the 169 monitoring forms returned in September, **140** recorded data on changes in social worker.

Of these, 32% show the child/young person having 1 or more changes of social worker since the last CiC review

42 children had a change of SW, 35 had 1 change, 7 had 2 changes since their last review.

Teams have been working hard to provide stability in the services and have invested heavily in recruiting newly qualified social workers in order to provide a more long term stable workforce. This corresponds with new permanent staff starting.

Trend – % of cases reviewed with 1 or more changes of Social Worker since last review:-

	Apr-16	May-16	Jun-16	Jul-16	Aug-16	Sep-16
% of QA Forms completed in the month that						
indicate 1 or more changes in Social Worker	38.7%	36.5%	27.7%	27.5%	18.1%	30.0%
since the last CiC review
