Dear Councillor Hughes

Revenue Budget 2015/16 - Fees and Charges

I am writing to ask if you will make a decision in accordance with Paragraph 11 of the County Council's Scheme of Delegation by approving the detailed schedule of fees and charges for:

- Highways, Planning and Design
- Public and Community Transport

As in previous years the principle that has been applied in reviewing the charges is to ensure that where the charge is at the discretion of the authority, the charge is set at a level to at least break-even in terms of cost recovery and where appropriate, to achieve the optimum level of income to the authority.

The review for 2015/16 considered the impact of any changes made in 2014/15 and the current economic climate. Consequently the majority of the charges have been increased by inflation having been frozen in 2013/14. Additionally as explained in the cabinet report new charges are proposed for historic environment services. The first of these relates to charges for the licenced, commercial use of data supplied from the Historic Environment Record; such charges are intended to cover the staff and associated costs of providing these data. The second set of charges relates to the provision of a specialist advisory service to landowners and developers, prior to their submission of planning applications. Such charges are currently standard practice in many other upper tier and unitary authorities. The income generated by these charges will be used to offset required budget saving as suggested at the Joint Scrutiny Meeting and will help to protect the provision of these statutory services.

Continued/....

Textphone 0845 1551020 www.devon.gov.uk

Within the Highways budget it is proposed that Resident Permit charges increase by £10 per annum to reflect the actual cost of implementing, enforcing and maintaining these schemes, with a proposed higher charge of £50 per annum for second permits for higher emission cars to promote greener travel choices and improve air quality. In addition, a range of new dispensation permits is to be made available to improve quick access to permits for certain business activities e.g. tradespeople undertaking works in resident permit zones. Pay and display charges are being reviewed in order to update charges to be in line with the long standing aim of promoting off street parking/car parks for long stay and on street places for shorter stays. In practice this means longer stay tariffs (above 1hr) will be brought in line with District off street long stay tariffs, with short stay tariffs mainly staying at the current lower level. Residential disabled bay provision is currently being reviewed with consideration of a charge to the applicant for the associated lining and signing works (around £150). This is like many other local authorities that have made the decision to continue to supply these bays. In a similar vein Access Protection Markings will be included for a charge to applicant for associated costs (around £60). Other Highways charges have been reviewed and brought in line with other authorities. This has resulted in some charges increasing above inflation and new charges being introduced to provide a more flexible pricing structure. Please note that the changes to fees and charges proposed in sections 7, 22 & 30 are subject to further consultation. Therefore, these fees and charges are for agreement subject to consideration of any significant objections received.

Please find enclosed two copies of the Cabinet Member Decision form, to enable you to formally advise of your decision. I would be pleased if you could advise me of your decision by 25 March by returning one copy of the decision form in the enclosed pre-paid envelope.

If you require any further information, please contact Ann Heppell by telephoning (01392) 382237 or e-mailing ann.heppell@devon.gov.uk

In accordance with procedures a copy of this letter has been sent to Councillor Andrew Moulding as Chairman of Place Scrutiny Committee.

No action will be taken until all Members of the County Council have been advised of your decision and five working days have elapsed to enable Members to request that the decision be referred to the full Cabinet for consideration or called in by Place Scrutiny Committee for consideration.

Yours sincerely

David Whitton Head of Highways, Capital Development and Waste John Smith Head of Services for Communities Dave Black Head of Planning, Transportation and Environment
