6 20 MPH Speed Limit Review

In considering the report on Action Taken under Delegated Powers at the last meeting of this committee it was resolved that:

*‘in view of the continued delay of the Governments Review of 20mph speed limits, the Committee receive a report at its next meeting, so the matter could be debated’.*

Atkins, Aecom and Professor Mike Maher were commissioned by the Department for Transport to undertake research into 20mph speed limits.

- to evaluate the effectiveness of 20mph speed limits, in a range of settings;
- to examine drivers' and residents' perceptions of 20mph limits;
- to assess the relative costs/benefits to vulnerable groups e.g. children, cyclists, the elderly; and
- to evaluate the processes and factors which contribute to the level of effectiveness of 20mph speed limit schemes.

The 20mph research project is continuing to make progress and has been extended to allow for an additional year of accident data to be included, strengthening the evidence base being considered. The final report is expected to be published later this year at which point the County Council will be better able to take a balanced view on the matter.
