To formally take part in the consultation

Views expressed at public or community group meetings organised or attended by the CCG will be noted and included by Healthwatch in its consultation report.

Other correspondence and petitions will also be noted by Healthwatch.

Alternative proposals put forward to Healthwatch during the consultation will be thoroughly reviewed and evaluated before being considered by the CCG's Governing Body.

This questionnaire enables you to give your views on a range of issues which underpin the consultation. These will help us to evolve the model of care described in this document and will be registered as part of the consultation.

Paper copies will be available across the South Devon and Torbay area and are available on request by calling [] during office hours, emailing sdtccg.consultation@nhs.net, or writing to South Devon and Torbay CCG, Pomona House, Torquay, TQ2 7FF.

The questions below are presented in sections covering people's preferences for health services and the challenges we face, the proposed new model of care, and the best way we think it can be implemented. Each question provides an opportunity to comment on a number of areas and we would like you to give your views on each.

Service preferences and challenges

1. Do you think that the requirements below, which people told us they wanted in 2013 from health services, still apply today?

| | Yes | No | Don't know |
|---|------------|------------|------------|
| Accessible services – convenient opening hours, transport and accessible buildings | \bigcirc | \bigcirc | \bigcirc |
| Better communication – between clinician and patient, and between clinicians themselves | \bigcirc | \bigcirc | \bigcirc |
| Continuity of care – to allow relationship-building with clinicians and carers | \bigcirc | \bigcirc | \bigcirc |
| Coordination of care – including joined-up information systems | \bigcirc | \bigcirc | \bigcirc |
| Support to stay at home – with a wide range of services and support | \bigcirc | \bigcirc | \bigcirc |
| Is there anything else you would want to see? Please list: | | | |

2. Do you agree with the reasons that change is required in relation to:

| | Yes | No | Don't know |
|---|------------|------------|------------|
| Establishing better joint working between services? | \bigcirc | \bigcirc | \bigcirc |
| Looking after the rising number of elderly people, many with long-term conditions? | \bigcirc | \bigcirc | \bigcirc |
| Tackling differences in life expectancy between affluent and deprived areas? | \bigcirc | \bigcirc | \bigcirc |
| Providing alternatives to A&E for non-emergency care? | \bigcirc | \bigcirc | \bigcirc |
| Ensuring that we have enough appropriately experienced staff to look after patients safely? | \bigcirc | \bigcirc | \bigcirc |
| Making best use of the money available? | \bigcirc | \bigcirc | \bigcirc |

3. Do you agree that we should develop more community health services to replace some community hospitals and avoid unnecessary use of hospital beds?

Yes

🔵 No

Don't know

New model of care

4. The NHS should support people to keep well and independent for as long as possible by:

| | Strongly agree | Agree | Disagree | Strongly disagree |
|---|----------------|------------|------------|-------------------|
| Investing in health promotion activities (eg exercise classes for those with heart and lung disease). | \bigcirc | \bigcirc | \bigcirc | \bigcirc |
| Providing multidisciplinary support nearer to where people live. | \bigcirc | \bigcirc | \bigcirc | \bigcirc |
| Developing more out-of-hospital treatments, especially for old, frail people. | \bigcirc | \bigcirc | \bigcirc | \bigcirc |
| Reducing the number of hospital beds to fund more community services. | \bigcirc | \bigcirc | \bigcirc | \bigcirc |

5. People should be admitted to hospital when:

| | Strongly | | | Strongly |
|--|------------|------------|------------|------------|
| | agree | Agree | Disagree | disagree |
| They no longer need nursing or medical care. | \bigcirc | \bigcirc | \bigcirc | \bigcirc |
| They feel lonely or isolated. | \bigcirc | \bigcirc | \bigcirc | \bigcirc |
| Their needs cannot be looked after at home. | \bigcirc | \bigcirc | \bigcirc | \bigcirc |
| Their needs cannot be met by a care home. | \bigcirc | \bigcirc | \bigcirc | \bigcirc |
| Their family feel unable to look after them. | \bigcirc | \bigcirc | \bigcirc | \bigcirc |

6. When resources are limited, the NHS should prioritise the use of staff and funding to:

| | Strongly agree | Agree | Disagree | Strongly disagree |
|--|----------------|------------|------------|-------------------|
| Help keep more people well for longer. | \bigcirc | \bigcirc | \bigcirc | \bigcirc |
| Prioritise the treatment of people with the most complicated health conditions. | \bigcirc | \bigcirc | \bigcirc | \bigcirc |
| Care for people in their own homes or close to where they live. | \bigcirc | \bigcirc | \bigcirc | \bigcirc |
| Keep open expensive-to-run community hospitals that need modernising and offer limited services. | \bigcirc | \bigcirc | \bigcirc | \bigcirc |

Implementing the model of care

7. When attending outpatient clinics, the most important aspects to you are:

| | Strongly agree | Agree | Disagree | Strongly disagree |
|---|-------------------|------------|------------|----------------------|
| The time I have to wait for an appointment. | U | 0 | | Ū |
| The distance I have to travel. | \bigcirc | \bigcirc | \bigcirc | \bigcirc |
| The specialist that I see. | \bigcirc | \bigcirc | \bigcirc | \bigcirc |

8. Minor injuries units, which provide treatment for non-life-threatening problems and less serious injuries (such as suspected broken bones and sprains, burns and scalds) should:

| | Strongly agree | Agree | Disagree | Strongly disagree |
|---|----------------|------------|------------|----------------------|
| Be open consistent hours, seven days a week. | \bigcirc | \bigcirc | \bigcirc | \bigcirc |
| Have x-ray diagnostic services. | \bigcirc | \bigcirc | \bigcirc | \bigcirc |
| Be staffed by specialists experienced in dealing with minor injuries. | \bigcirc | \bigcirc | \bigcirc | \bigcirc |
| Be easily reached and have good car parking. | \bigcirc | \bigcirc | \bigcirc | \bigcirc |
| Operate different hours in different locations. | \bigcirc | \bigcirc | \bigcirc | \bigcirc |
| Offer different services in different locations. | \bigcirc | \bigcirc | \bigcirc | \bigcirc |

9. If the choice is between:

• Using resources to keep open community hospitals which look after small numbers of people from across the CCG area

Or

• Using these resources to expand community health services by recruiting more trained nurses and therapists to help keep people healthier, out of hospital and supported closer to their homes

Do you on balance agree that it is better to do the latter?

Yes No
