E david.bray@uk.gt.com

This paper provides the Audit Committee with a report on progress in delivering our responsibilities as your external auditors.

The paper also includes:

- a summary of emerging national issues and developments that may be relevant to you as a local authority; and
- a number of challenge questions in respect of these emerging issues which the Committee may wish to consider (these are a tool to use, if helpful, rather than formal questions requiring responses for audit purposes)

Members of the Audit Committee can find further useful material on our website, where we have a section dedicated to our work in the public sector. Here you can download copies of our publications www.grantthornton.co.uk

If you would like further information on any items in this briefing, or would like to register with Grant Thornton to receive regular email updates on issues that are of interest to you, please contact either your Engagement Lead or Engagement Manager.

Progress at 19 February 2020

Financial Statements Audit

We issued our opinion on your 2018/19 Statement of Accounts on 30 July 2019. Since that date we have completed our work on your Whole of Government Accounts (WGA) submission and there are no issues we need to bring to the Audit Committee's attention.

We certified the closure of the 2018/19 audit on 29 August 2019 and our Annual Audit Letter for 2018/19 was reported to the November 2019 Audit Committee.

We have commenced our planning for the 2019/20 audit and our draft audit plan will be presented to the Council's Audit Committee in February 2020.

We will begin our interim audit in February which includes:

- Updated review of the Council's control environment
- Updated understanding of financial systems
- Review of Internal Audit reports on core financial systems
- Early work on emerging accounting issues
- Early substantive testing

We will report our interim work in the Audit Committee Update to the May 2020 Audit Committee and our final audit work in the Audit Findings Report.

Value for Money

The scope of our work is set out in the guidance issued by the National Audit Office. The Code requires auditors to satisfy themselves that; "the Council has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources".

The guidance confirmed the overall criterion as: "in all significant respects, the audited body had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people".

The three sub criteria for assessment to be able to give a conclusion overall are:

- Informed decision making
- Sustainable resource deployment
- Working with partners and other third parties

We have commenced our initial risk assessment to determine the focus of our Value for Money work in 2019-20. Details of our initial risk assessment to determine our proposed approach are included in our Audit Plan.

We will report our work in the Audit Findings Report.

Progress at 19 February 2020 (cont'd)

Other areas

Certification of claims and returns

We certify the Council's annual Teachers' Pensions return in accordance with procedures agreed with the Teachers' Pensions Agency. The certification work for the 2018/19 was completed by the 30 November deadline and the claim was certified without amendment.

There are no matters we wish to report to the Audit Committee.

Events

We provide a range of workshops, along with network events for members and publications to support the Council.

Your officers attended our Financial Reporting Workshop 30 January 2020, which helped to ensure they were up to date with the latest financial reporting requirements for local authority accounts. Further details of the publications that may be of interest to the Council are set out in our Sector Update section of this report.

Audit Deliverables

2019/20 Deliverables	Planned Date	Status
<p>Fee Letter</p> <p>Confirming audit fee for 2019/20</p>	April 2019	Complete
<p>Accounts Audit Plan</p> <p>We are required to issue a detailed accounts audit plan to the Audit Committee setting out our proposed approach in order to give an opinion on the Council's 2019-20 financial statements.</p>	February 2020	Complete
<p>Interim Audit Findings</p> <p>We will report to you the findings from our interim audit and an update on our VFM work within our Progress Report.</p>	May 2020	Not yet due
<p>Audit Findings Report</p> <p>The Audit Findings Report will be reported to the July Audit Committee.</p>	To be agreed	Not yet due
<p>Auditors Report</p> <p>This is the opinion on your financial statement, annual governance statement and value for money conclusion.</p>	To be agreed	Not yet due
<p>Annual Audit Letter</p> <p>This letter communicates the key issues arising from our work.</p>	To be agreed	Not yet due

Sector Update

Councils are tackling a continuing drive to achieve greater efficiency in the delivery of public services, whilst facing the challenges to address rising demand, ongoing budget pressures and social inequality.

Our sector update provides you with an up to date summary of emerging national issues and developments to support you. We cover areas which may have an impact on your organisation, the wider NHS and the public sector as a whole. Links are provided to the detailed report/briefing to allow you to delve further and find out more.

Our public sector team at Grant Thornton also undertake research on service and technical issues. We will bring you the latest research publications in this update. We also include areas of potential interest to start conversations within the organisation and with audit committee members, as well as any accounting and regulatory updates.

Financial Reporting Council – Summary of key developments for 2019/20 annual reports

On 30 October the Financial Reporting Council (FRC) wrote an Open Letter to Company Audit Committee Chairs. Some of the points are relevant to local authorities.

The reporting environment

The FRC notes that, “In times of uncertainty, whether created by political events, general economic conditions or operational challenges, investors look for greater transparency in corporate reports to inform their decision-making. We expect companies to consider carefully the detail provided in those areas of their reports which are exposed to heightened levels of risk; for example, descriptions of how they have approached going concern considerations, the impact of Brexit and all areas of material estimation uncertainty.” These issues equally affect local authorities, and the Statement of Accounts or Annual Report should provide readers with sufficient appropriate information on these topics.

Critical judgements and estimates

The FRC wrote “More companies this year made a clear distinction between the critical judgements they make in preparing their accounts from those that involve the making of estimates and which lead to different disclosure requirements. However, some provided insufficient disclosures to explain this area of their reporting where a particular judgement had significant impact on their reporting; for example, whether a specific investment was a joint venture or a subsidiary requiring consolidation. We will continue to have a key focus on the adequacy of disclosures supporting transparent reporting of estimation uncertainties. An understanding of their sensitivity to changing assumptions is of critical value to investors, giving them clearer insight into the possible future changes in balance sheet values and which can inform their investment decisions.” Critical judgements and estimates also form a crucial part of local authority statements of account, with the distinction often blurred.

IFRS 16 Leases

The FRC letter notes “IFRS 16 is effective for periods beginning on or after 1 January 2019. We recently conducted a thematic review looking at how companies reported on their adoption of the new standard in their June 2019 interim accounts. In advance of our detailed findings which will be published shortly, I set out what we expect to see by way of disclosures in the forthcoming accounts, drawing on the results of our work.

- Clear explanation of the key judgements made in response to the new reporting requirements;
- Effective communication of the impact on profit and loss, addressing any lack of comparability with the prior year;
- Clear identification of practical expedients used on transition and accounting policy choices; and
- Well explained reconciliation, where necessary, of operating lease commitments under IAS 17, ‘Leases’, the previous standard and lease liabilities under IFRS 16.”

The implementation of IFRS is delayed until 1 April 2020 in the public sector when it will replace IAS 17 Leases and the three interpretations that supported its application. Authorities will need information and processes in place to enable them to comply with the requirements. They will need to make disclosures in the 2019/20 accounts about the impact of IFRS 16 in accordance with IAS 8/ Code 3.3.4.3 requirements for disclosure about standards which are issued but are not yet effective.

Financial Reporting

Challenge question:

Will you have the opportunity to review and comment on your authority’s statement of accounts before they are published at the end of May?

What is the future for local audit?

Paul Dossett, Head of local government at Grant Thornton, has written in the Municipal Journal “Audit has been a hot topic of debate this year and local audit is no exception. With a review into the quality of local audit now ongoing, it’s critical that part of this work looks at the overarching governance and management of the audit regime. We believe there is a strong need for new oversight arrangements if the local audit regime is to remain sustainable and effective in the future.”

Paul goes on to write “Local (local authority and NHS) audit has been a key part of the oversight regime for public services for more than a century. The National Audit Office (NAO) has exercised this role in central government for several generations and their reporting to Parliament via the Public Accounts Committee is a key part of the public spending accountability framework.

Local audit got a significant boost with the creation of the Audit Commission in 1983 which provided a coordinated, high profile focus on local government and (from 1990) NHS spending and performance at a local level. Through undertaking value for money reviews and maintaining a tight focus on the generational governance challenges, such as rate capping in the 1980s and service governance failings in the 1990s, the Commission provided a robust market management function for the local audit regime. Local audit fees, appointments, scope, quality and relevant support for auditors all fell within their ambit.

However, the Commission was ultimately deemed, among other things, to be too expensive and was abolished in 2010, as part of the Coalition Government’s austerity saving plans. While the regime was not perfect, and the sector had acknowledged that reform of the Commission was needed, complete abolition was not the answer.

Since then, there has been no body with complete oversight of the local audit regime and how it interacts with local public services. The Ministry of Housing, Communities and Local Government; Department of Health; NHS; NAO; Local Government Association (LGA); Public Sector Audit Appointments Ltd (PSAA); the Financial Reporting Council (FRC); the Chartered Institute of Public Finance & Accountancy (CIPFA), audit firms and the audited bodies themselves all have an important role to play but, sometimes, the pursuit of individual organisational objectives has resulted in sub-optimal and even conflicting outcomes for the regime overall.

These various bodies have pursued separate objectives in areas such as audit fee reduction, scope of work, compliance with commercial practice, earlier reporting deadlines and mirroring commercial accounting conventions – to name just a few.

This has resulted in a regime that no stakeholder is wholly satisfied with and one that does not ensure local audit is providing a sufficiently robust and holistic oversight of public spending.

To help provide a more cohesive and co-ordinated approach within the sector, we believe that new oversight arrangements should be introduced. These would have ultimate responsibility for ensuring the sustainability of the local audit regime and that its component parts – including the Audit Code, regulation, market management and fees – interact in an optimal way. While these arrangements do not need to be another Audit Commission, we need to have a strategic approach to addressing the financial sustainability challenges facing local government and the NHS, the benchmarking of performance and the investigation of governance failings.

There are a number of possible solutions including:

- 1) The creation of a new arm’s length agency with a specific remit for overseeing and joining up local audit. It would provide a framework to ensure the sustainability of the regime, covering fees, appointments, and audit quality. The body would also help to create a consistent voice to government and relevant public sector stakeholders on key issues arising from the regime. Such a body would need its own governance structure drawn from the public sector and wider business community; and
- 2) Extending the current remit of the NAO. Give it total oversight of the local audit regime and, in effect, establish a local audit version of the NAO, with all the attendant powers exercised in respect of local audit. In this context, there would be a need to create appropriate governance for the various sectors, similar to the Public Accounts Committee.

While the detail of the new arrangements would be up for debate, it’s clear that a new type of oversight body, with ultimate responsibility for the key elements of local audit, is needed. It would help to provide much-needed cohesion across the sector and between its core stakeholders.

Implementation of International Financial Reporting Standard 16 Leases

IFRS 16 *Leases*, as interpreted and adapted for the public sector, will be effective from 1 April 2020.

Background

IFRS 16 Leases was issued by the International Accounting Standards Board (IASB) in January 2016 and is being applied by HM Treasury in the Government Financial Reporting Manual from 1 April 2020. Implementation of the Standard will be included in the *Code of Practice on Local Authority Accounting in the United Kingdom* (the Code) for 2020/21.

The new Standard replaces the current leasing standard IAS 17 and related interpretation documents IFRIC 4, SIC 15 and SIC 27 and it sets out the principles for the recognition, measurement, presentation and disclosure of leases. The IASB published IFRS 16 because it was aware that the previous lease accounting model was criticised for failing to provide a faithful representation of leasing transactions.

Impact on 2019/20 financial statements

Whilst the new Standard is effective from 1 April 2020, authorities are required by the Code to *'disclose information relating to the impact of an accounting change that will be required by a new standard that has been issued but not yet adopted'*. This requirement of the Code (3.3.4.3) reflects the requirements of paragraph 30 of IAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors*.

In the 2019/20 financial statements we would therefore expect to see authorities make disclosures including:

- the title of the Standard
- the date of implementation
- the fact that the modified retrospective basis of transition is to be applied, with transition adjustments reflected through opening reserves
- known or reasonably estimable information relevant to assessing the possible impact that application will have on the entity's financial statements, including the impact on assets, liabilities, reserves, classification of expenditure and cashflows
- the basis for measuring right of use assets on transition
- the anticipated use of recognition exemptions and practical expedients recognising that what is sufficient disclosure for one body may not be sufficient for another

Information needed for 2019/20 financial statements

In order to make disclosures in 2019/20, a significant amount of data will be needed, most significantly:

- a complete list of leases previously identified under IAS 17 and IFRIC 4
- details of non-cancellable lease terms, purchase options, extension and termination options
- details of lease arrangements at peppercorn or nil rental
- anticipated future cash flows and implicit interest rates or incremental borrowing rates to enable calculation of lease liabilities

Audit work on IFRS 16 transition

At this stage, we would expect you to have:

- determined whether the impact of IFRS 16 will be material for your authority
- raised awareness of the new Standard across the authority, potentially including procurement, estates, legal and IT departments
- assessed the completeness and accuracy of your lease register and taken action if necessary
- formalised and signed existing lease documentation
- identified leases of low value assets and leases with short terms
- considered whether liaison with valuation experts is necessary
- started to draft your 2019/20 disclosure note
- started to embed processes to capture the data necessary to manage the ongoing accounting implications of IFRS 16

and that you are monitoring progress against an approved IFRS 16 implementation plan. Your local engagement team will be in touch to discuss your progress with IFRS 16 implementation and audit working paper requirements.

Implementation of International Financial Reporting Standard 16 *Leases*

Further information and guidance

CIPFA published their 2020/21 Code consultation on 12 July 2019, including an Appendix concerned with IFRS 16 implementation, further details can be found at:

<https://www.cipfa.org/policy-and-guidance/consultations-archive/code-of-practice-on-local-authority-accounting-in-the-united-kingdom-202021?crdm=0>

HM Treasury published IFRS 16 Application Guidance in December 2019 which can be found at:

https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/853238/IFRS_16_Application_Guidance_December_2019.pdf

CIPFA's IFRS 16 'Early guide for local authority practitioners' is available at:

<https://www.cipfa.org/policy-and-guidance/publications/i/ifrs-16-leases-an-early-guide-for-local-authority-practitioners>

IFRS 16 has been adopted a year earlier in the commercial sector. The Financial Reporting Council has published an IFRS 16 Thematic Review '*Review of Interim Disclosures in the First Year of Application*', containing key findings from their review and providing helpful insights into important disclosure requirements. The FRC's publication is available at:

<https://www.frc.org.uk/getattachment/a0e7c6e7-67d0-40fe-b869-e5cc589afe79/IFRS-16-thematic-review-2019-optimised.pdf>.

Financial Reporting

Challenge question:

Does your authority have a project plan in place in relation to IFRS 16 *Leases* implementation?

Is your authority's progress against the project plan on track?

Grant Thornton's Sustainable Growth Index Report

Grant Thornton has launched the Sustainable Growth Index (formerly the Vibrant Economy Index) – now in its third year. The Sustainable Growth Index seeks to define and measure the components that create successful places. Our aim in establishing the Index was to create a tool to help frame future discussions between all interested parties, stimulate action and drive change locally. We have undergone a process of updating the data for English Local Authorities on our online, interactive tool, and have produced an updated report on what the data means. All information is available on our online hub, where you can read the new report and our regional analyses.

The Sustainable Growth Index provides an independent, data-led scorecard for each local area that provides:

- businesses with a framework to understand their local economy and the issues that will affect investment decisions both within the business and externally, a tool to support their work with local enterprise partnerships, as well as help inform their strategic purpose and CSR plans in light of their impact on the local social and economic environment
- policy-makers and place-shapers with an overview of the strengths, opportunities and challenges of individual places as well as the dynamic between different areas
- Citizens with an accessible insight into how their place is doing, so that they can contribute to shaping local discussions about what is important to them

The Index shows the 'tip of the iceberg' of data sets and analysis our public services advisory team can provide our private sector clients who are considering future locations in the UK, or wanting to understand the external drivers behind why some locations perform better than others.

Our study looks at over 50 indicators to evaluate all the facets of a place and where they excel or need to improve.

Our index is divided into six baskets. These are:

- 1 Prosperity
- 2 Dynamism and opportunity
- 3 Inclusion and equality
- 4 Health, wellbeing and happiness
- 5 Resilience and sustainability
- 6 Community trust and belonging

This year's index confirms that cities have a consistent imbalance between high scores related to prosperity, dynamism and opportunity, and low scores for health, wellbeing, happiness inclusion and equality. Disparity between the richest and poorest in these areas represents a considerable challenge for those places.

Inclusion and equality remains a challenge for both highly urban and highly rural places and coastal areas, particularly along the east coast from the North East to Essex and Kent, face the most significant challenges in relation to these measures and generally rank below average.

Creating sustainable growth matters and to achieve this national policy makers and local authorities need to do seven things:

- 1 Ensure that decisions are made on the basis of robust local evidence.
- 2 Focus on the transformational trends as well as the local enablers
- 3 Align investment decisions to support the creation of sustainable growth
- 4 Align new funding to support the creation of sustainable growth
- 5 Provide space for innovation and new approaches
- 6 Focus on place over organisation
- 7 Take a longer-term view

The online report is available here:

<https://www.grantthornton.co.uk/en/insights/sustainable-growth-index-how-does-your-place-score/>

Institute for Fiscal Studies – English local government funding: trends and challenges in 2019 and beyond

The Institute for Fiscal Studies (IFS) has found “The 2010s have been a decade of major financial change for English local government. Not only have funding levels – and hence what councils can spend on local services – fallen significantly; major reforms to the funding system have seen an increasing emphasis on using funding to provide financial incentives for development via initiatives such as the Business Rates Retention Scheme (BRRS) and the New Homes Bonus (NHB).”

The IFS goes on to report “Looking ahead, increases in council tax and additional grant funding from central government mean a boost to funding next year – but what about the longer term, especially given plans for further changes to the funding system, including an expansion of the BRRS in 2021–22?”

This report, the first of what we hope will be an annual series of reports providing an up-to-date analysis of local government, does three things in this context. First, it looks in detail at councils’ revenues and spending, focusing on the trends and choices taken over the last decade. Second, it looks at the outlook for local government funding both in the short and longer term. And third, it looks at the impact of the BRRS and NHB on different councils’ funding so far, to see whether there are lessons to guide reforms to these policies.

The report focuses on those revenue sources and spending areas over which county, district and single-tier councils exercise real control. We therefore exclude spending on police, fire and rescue, national park and education services and the revenues specifically for these services. When looking at trends over time, we also exclude spending on and revenues specifically for public health, and make some adjustments to social care spending to make figures more comparable across years. Public health was only devolved to councils in 2013–14, and the way social care spending is organised has also changed, with councils receiving a growing pot of money from the NHS to help fund services.”

The IFS reports a number of key facts and figures, including

- 1) Cuts to funding from central government have led to a 17% fall in councils’ spending on local public services since 2009–10 – equal to 23% or nearly £300 per person.
- 2) Local government has become increasingly reliant on local taxes for revenues.
- 3) Councils’ spending is increasingly focused on social care services – now 57% of all service budgets.

The IFS report is available on their website below:

<https://www.ifs.org.uk/publications/14563>
