

**Health and Wellbeing Outcomes Report**

**Report of the Chief Officer for Communities, Public Health, Environment and Prosperity**

**Recommendation:** It is recommended that the Devon Health and Wellbeing Board note the updated Health and Wellbeing Outcomes Report.

**1. Context**

This paper and accompanying presentation introduces the updated outcomes report for the Devon Health and Wellbeing Board.

**2. Summary of the Health and Wellbeing Outcomes Report, July 2021**

2.1 The full Health and Wellbeing Outcomes Report for **July 2021**, along with this paper, is available on the Devon Health and Wellbeing website: [www.devonhealthandwellbeing.org.uk/jsna/health-andwellbeing-outcomes-report](http://www.devonhealthandwellbeing.org.uk/jsna/health-andwellbeing-outcomes-report). The report monitors the four Joint Health and Wellbeing Strategy 2020-25 priorities, and includes breakdowns by local authority, district, and trends over time. These priorities areas include:

- **Create opportunities for all**
- **Healthy safe, strong and sustainable communities**
- **Focus on mental health**
- **Maintain good health for all**

**Nine indicators** have been updated with new data and are as follows:

- **% with NVQ4+ (aged 16-64), 2020**

The percentage of people aged 16-64 with an NVQ4+ qualification in Devon is 40.7%. This is significantly lower compared to the England average of 42.8%. Across Devon, there is some variation across the districts. All districts are significantly lower compared to the England average except for Exeter and South Hams, which are significantly higher compared to the England average (51.8% and 47.2% respectively).

- **% with No Qualifications (NVQ) (aged 16-64), 2020**

The percentage of people aged 16-64 with no qualifications in Devon is 3.7%. This is significantly lower compared to the England average of 6.2%. Across Devon, there is some variation across the districts. East Devon and Mid Devon are significant higher compared to England average (7.8% and 7.5% respectively).

- **Not in Education, Employment or Training, 2020**

The percentage of people aged 16-19 not in education, employment or training (NEET) or whose activity is not known in Devon is 5.0%. This is significantly lower compared to the England average of 6.0%. Across Devon, there is some variation across the districts. All districts are significantly lower compared to the England average except for Exeter, Mid Devon and West Devon, which are statistically similar compared to the England average (6.2%, 5.6% and 6.0% respectively).

- **Rough Sleeping, 2020**

In Devon, the rate of rough sleepers counted or estimated by the local authority is 1.5 per 10,000 households, a rate which is significantly lower compared to the England average of 2.0. Across Devon, there is variation in rates across the districts. All districts are statistically similar compared to the England average except for East Devon and West Devon, which are significantly lower compared to the England average (0.8 and 0.0 respectively).

- **Overall Rate of Crime, 2020/21**

In Devon, the rate of crime from incidents recorded by the police is 41.4 per 1,000 population, a rate which is significantly lower compared to the England average of 76.3. Across Devon, there is little variation in rates across the districts. All districts are significantly lower compared to the England average.

- **Adults Excess Weight, 2019/20**

The percentage of adults classified as overweight or obese in Devon is 59.3%. This is significantly lower compared to the England average of 62.8%. Across Devon, there is variation across the districts. North Devon is significantly higher compared to the England average (67.5% respectively).

- **Proportion of Physically Active Adults, 2019/20**

The percentage of adults achieving at least 150 minutes of physical activity per week in accordance with UK CMO recommended guidelines on physical activity in Devon is 74.1%. This is significantly higher compared to the England average of 66.4%. Across Devon, there is little variation across the districts. All districts are significantly higher compared to the England average.

- **Fruit and Vegetable Consumption (5-a-day), 2019/20**

The percentage of the population who reported that they had eaten the recommended 5 portions of fruit and vegetables on a usual day in Devon is 63.7%. This is significantly higher compared to the England average of 55.4%. Across Devon, there is little variation across the districts. All districts are significantly higher compared to the England average except for Torridge, which is statistically similar compared to the England average (54.2% respectively).

- **Feel Supported to Manage Own Condition, 2020**

The percentage of people feeling supported to manage their condition according to the GP Patient Survey in Devon is 85.8%. This is significantly higher compared to the England average of 77.5%. Across Devon, there is little variation across the districts. All districts are significantly higher compared to the England average.

Please note that many outcome indicators demonstrate health and wellbeing inequalities across smaller areas which may not always be apparent when observing only the Devon figure.

Please refer to the [Devon Health and Wellbeing Outcomes report](#) for a full list of indicators.

### **3. Future developments to the Devon Health and Wellbeing Outcomes Report**

3.1 The 'Explanatory' Headline resource was published online in December and has recently been revamped and updated in May. This can be used to compliment the outcomes report as it provides information at many different geographical levels.

3.2 The 'Exploratory' resource is still in development with delays caused due to the Coronavirus global pandemic. This tool will provide information on health and wellbeing across the life course focusing on geographic variation, trends, deprivation inequalities and correlations.

3.3 An interactive tool is in development for the Outcomes Report and will

3.4 An easy read version of the Devon Health and Wellbeing Outcomes report is also in development, with delays caused due to the Coronavirus global pandemic.

### **4. Legal Considerations**

There are no specific legal considerations identified at this stage.

## **5. Risk Management Considerations**

Not applicable.

## **6. Options/Alternatives**

Not applicable.

## **7. Public Health Impact**

The Devon Health and Wellbeing Outcomes Report is an important element of the work of the board, drawing together priorities from the Joint Health and Wellbeing Strategy, and evidence from the Joint Strategic Needs Assessment. This report and the related documents have a strong emphasis on public health and other relevant health, social care and wellbeing outcomes. A number of the outcome indicators are also drawn from the Public Health Outcomes Framework. The report also includes a specific focus on health inequalities.
