

Bus Shelters in Exeter

Report of the Head of Planning, Transportation and Environment

Please note that the following recommendation is subject to consideration and determination by the Committee before taking effect.

Recommendation: It is recommended that the Committee notes progress with pursuing the bus shelter installation programme; considers and agrees a priority list for additional shelters - those free under the contract plus those purchased from the County Council's digital revenue share.

1. Background/introduction

This report provides an update on Clear Channel's progress with bus shelter replacement installations. It also includes a possible priority list for additional shelters - those free under the contract plus those purchased from the County Council's digital revenue share.

2. The Shelter Installation Programme

The current programme, subject to County Highways approval, is attached as an appendix.

Officers have further examined the possibility of categorizing Clear Channel as a 'statutory undertaking,' which, through the use of more automated systems, would speed up the highway approval process for shelter installations. However, at present Clear Channel do not meet the requirements for this. Nevertheless, officers have worked to advance works wherever possible and there has recently been marked progress.

4. Additional Shelters

The Chair of this Committee has met with officers and agreed a recommended priority list of shelters to be acquired either as free shelters under the terms of the contract or purchased from the County Council's share of digital revenue. (The digital revenue share is divided equally between the County and City Councils; DCC Cabinet agreed that the County share be made available for this Committee to allocate towards additional shelters.) The recommendations are selected from local requests. The list is attached as an appendix.

5. Consultations/Representations/Technical Data

Not applicable.

6. Financial Considerations

There is no financial consideration for DCC or ECC with the existing contract. Digital advertising revenue is over and above the original contract.

7. Environmental Impact Considerations

The Authority has a responsibility to ensure that shelters are disposed of in an environmentally friendly manner when they are dismantled.

All dismantled shelters are transported to Clearchannel's Central Depot. Materials from the dismantled shelters are then inspected and utilised in the following ways:

- The metal infrastructure of the shelter is inspected and assessed. Re-furbished shelters are produced from the salvaged materials. For every four dismantled shelters they are able to produce approximately one re-furbished shelter. Re-furbished shelters are then offered to customers at discounted prices.
- Parts are salvaged and cleaned to provide maintenance stock which is distributed nationally.
- 100% of fluorescent tubes and lamps are recycled.
- Electrical equipment is recycled where fit for purpose.
- Glass is recycled and used as aggregate.
- Metals beyond use are re-cycled.

8. Equality Considerations

Wherever possible the Department for Transport's "Inclusive Mobility" guidelines are adopted. In some locations restricted pavement width may make it impossible to fully comply. Full details of the guidelines are available at:

https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/3695/inclusive-mobility.pdf

9. Legal Considerations

There are no specific legal considerations, other than those related to Control of Advertisements Regulations described in section 4.

10. Risk Management Considerations

This policy/proposal has been assessed and all necessary safeguards or action have been taken/included to safeguard the Council's position.

11. Public Health Impact

None.

12. Summary/Conclusions/Reasons for Recommendations

Progress on the replacement programme is continuously monitored. The use of digital advertising revenue plus annual free shelters adds to the stock of shelters.
