# East Devon

# Purpose

- To Provide Community Based Health and Social Care Support to Adults who have an East Devon GP
- To help people to remain independent as long as possible with a focus on **‘What matters to me’**
- Focus on the **right** Person, providing the **right** intervention, at the **right** time
- Commission individualised packages of support

# Developments

- **Integrated care systems (ICSs)** are partnerships that bring together providers and commissioners of NHS services across a geographical area with local authorities and other local partners to collectively plan health and care services to meet the needs of their population.
- **Local Care Partnerships (LCPs)** are the model of joined up working to deliver local care for local people; working in and with local communities. LCPs are the delivery model of the ICS
