It is positive to see that a good proportion of the Team consider strongly that DAP Managers provide good motivation. There is “good improvement” over 2018.

DAP's success is reliant on all of us achieving our individual objectives and I feel appreciated for the work I do

There is good evidence to suggest that DAP staff are valued for the work that they do.

The Team do an excellent job, often in demanding situations and under pressure, but continue to deliver positive outcomes.

1. We are always seeking new ways to improve

The majority of staff consider that we are always seeking ways to improve; however, there are more “negative” responses to this question than others.

The pace of change can be too fast for some, and too slow for others – it may be that some staff wish more change to take place at a better pace.

We will explore this area more, and make sure that we are developing practices at good speed, but in a supportive way.
