

Health and Wellbeing Outcomes Report

Report of the Chief Officer for Communities, Public Health, Environment and Prosperity

Recommendation: It is recommended that the Devon Health and Wellbeing Board note the updated Health and Wellbeing Outcomes Report.

1. Context

This paper and accompanying presentation introduces the updated outcomes report for the Devon Health and Wellbeing Board.

2. Summary of the Health and Wellbeing Outcomes Report, April 2022

2.1 The full Health and Wellbeing Outcomes Report for **April 2022**, along with this paper, is available on the Devon Health and Wellbeing website: www.devonhealthandwellbeing.org.uk/jsna/health-andwellbeing-outcomes-report. The report monitors the four Joint Health and Wellbeing Strategy 2020-25 priorities, and includes breakdowns by local authority, district, and trends over time. These priorities areas include:

- **Create opportunities for all**
- **Healthy safe, strong and sustainable communities**
- **Focus on mental health**
- **Maintain good health for all**

Seven indicators have been updated with new data and are as follows:

- **Alcohol-Related Admissions (Narrow), 2020/21**

The alcohol related admission rate per 100,000 in Devon is 424.3. This is statistically better than the England rate of 455.9. East Devon, Mid Devon, South Hams and West Devon are all statistically better than the England average and Exeter and North Devon are statistically worse.

- **Cancer Diagnosed at Stage 1 or 2, 2019**

The proportion of cancer diagnosed at stage 1 or 2 rate for Devon is 57.8%. This is statistically better than the England value of 55.1%. However, most areas in Devon are statistically similar to England, with only East Devon and Exeter performing statistically better.

- **Emergency Hospital Admissions for Intentional Self Harm, 2020/21**

The rate of emergency hospital admissions for intentional self harm in Devon is 211 per 100,000, which is statistically worse than the England rate of 181.2. Exeter, Mid Devon, North Devon and Torridge are all significantly worse than the England rate and only West Devon is statistically better.

- **Injuries Due to Falls, 2020/21**

The rate of injuries due to falls in Devon is 1662.4 per 100,000. This is statistically better than the England rate of 2023.0. Almost all areas in Devon are statistically better than the England rate except for North Devon and West Devon which are statistically similar.

- **Reablement Services (Effectiveness), 2020/21**

The proportion of older people (65 and over) who were still at home 91 days after discharge from hospital into reablement services in Devon is 67%. This is statistically significantly worse than the England proportion of 79.1%. All local authority areas in Devon are also significantly worse than the England rate.

- **Self Reported Wellbeing (Low Happiness Score), 2020/21**

The percentage of people self reporting low happiness was 7.2% for Devon. This is statistically significantly better than the England proportion of 9.2%.

Please note that many outcome indicators demonstrate health and wellbeing inequalities across smaller areas which may not always be apparent when observing only the Devon figure.

Please refer to the Devon Health and Wellbeing Outcomes report for a full list of indicators.

3. Future developments to the Devon Health and Wellbeing Outcomes Report

3.1 The interactive Outcomes Reporting tool has been developed and can be found on the Devon Health and Wellbeing website [Health and Wellbeing Outcomes Report - Devon Health and Wellbeing](#)

3.2 An easy read version of the Devon Health and Wellbeing Outcomes report is also in development, with delays caused due to the Coronavirus global pandemic.

4. Legal Considerations

There are no specific legal considerations identified at this stage.

5. Risk Management Considerations

Not applicable.

6. Options/Alternatives

Not applicable.

7. Public Health Impact

The Devon Health and Wellbeing Outcomes Report is an important element of the work of the board, drawing together priorities from the Joint Health and Wellbeing Strategy, and evidence from the Joint Strategic Needs Assessment. This report and the related documents have a strong emphasis on public health and other relevant health, social care and wellbeing outcomes. A number of the outcome indicators are also drawn from the Public Health Outcomes Framework. The report also includes a specific focus on health inequalities.
