- a) Ensuring that High Needs Funding is allocated appropriately to achieve the best possible outcomes for children and young people with SEND, receiving value for money of the High Needs Block.
- b) Taking a proactive role in implementation of the DSG management plan, subject to the DfE's 'safety valve' intervention programme, and fulfilling the goals set out by that programme, to urgently resolve Devon's overspend issues and make the high needs system sustainable *(see Appendix 2)*

- b. The wider strategic SEND Transformation agenda which underpins Devon's inclusive approach to ensuring positive outcomes for children/young people with SEND through a **graduated response** to meeting needs -This would take account of the presumption in law of mainstream education alongside the use of special schools, as set out in the 2014 Children and Families Act. *(See Appendix 3)* as well as the provision of education for children and young people in their local community.

Appendix 1:

The powers which schools forums: have to take decisions on a range of funding matters increase the importance of clear procedures, for example, decisions are made on a simple majority or the threshold to be met if higher. These procedures should take account of any use of working groups by the schools forum, for example a decision might be taken by voting to accept and adopt a report by a working group

Working groups: It's open to a schools forum to set up working groups of members to discuss specific issues, and to produce draft advice and decisions for the schools forum itself to consider. The groups can also include wider representation, for example, an early years reference group can represent all the different types of provider to consider the detail of the early years single funding formula. The reference group would then be able to give its considered view on the local authority's proposals to the schools forum. The schools forum should not delegate actual decisions or the finalisation of advice to a working group, as this may have the effect of excluding legitimate points of view. These have proved effective for larger local authorities; examples of some working groups are for high needs and early years.¹

Appendix 2: From 'Guidance: Sustainable high needs systems: learning from the safety valve intervention programme'²

In 2020-21, the Department for Education introduced the 'safety valve' intervention programme for those local authorities with the very highest percentage DSG deficits, recognising that help would be needed for these authorities to turn things around in a short space of time. The programme required those local authorities to develop substantial plans for reform to their high needs systems and associated spending, with support and challenge from the department, to rapidly place them on a sustainable footing.

We asked the local authorities to focus on one mission statement: to develop plans to reform their high needs systems as quickly as possible to provide a good service within their available funding. The programme is not a 'bail-out' – it requires genuine reform and improvement to services. All local authorities should focus on the same goal, for the long-term benefit of their children and young people and securing the support they require.

There were two principal goals identified during the programme which were critical for the local authorities' ability to reach sustainable positions:

- appropriately managing demand for Education, Health and Care Plans (EHCPs), including assessment processes that are fit for purpose
- use of appropriate and cost-effective provision. This includes ensuring mainstream schools are equipped and encouraged to meet needs where possible, whilst maintaining high standards for all pupils.

Achieving the goals:

1. Early Intervention focus
2. Increased SEN Support offer
3. Review EHCP assessment processes and thresholds

Appendix 3: From *The Special educational needs and disability code of practice: 0 to 25 years*³

The Children and Families Act:

- “Secures the general presumption in law of mainstream education in relation to decisions about where children and young people with SEN should be educated”
- “Alongside the general presumption of mainstream education, parents of children with an EHC plan and young people with such a plan have the right to seek a place at a special school, special post-16 institution or specialist college”.⁴
- And sets out that: “Special schools (in the maintained, academy, non-maintained and independent sectors), special post-16 institutions and specialist colleges all have an important role in providing for children and young people with SEN and in working collaboratively with mainstream and special settings to develop and share expertise and approaches.”⁵

Appendix 4: Membership and Substitutes

Substitutes: the local authority must make arrangements to enable substitutes to attend and vote (where appropriate) at schools forum meetings. This applies to schools members, academies members and non-schools members. The arrangements must be decided in consultation with schools forum members.⁶

Appendix 5:

Election of a Chair: Under the Regulations, if the position of Chair falls vacant the schools forum must decide how long the term of office of the next Chair will be. This can be for any period, but the schools forum should consider carefully whether a period exceeding two years is sensible. A long period will also cause problems if the member elected as Chair has a term of office as a member which comes to an end before their term of office as Chair ends. The schools forum must elect a Chair from amongst its own members, so it is not possible to elect an independent Chair. In addition any elected member of the local authority or officer of the local authority who is a member of a schools forum may not hold the office of Chair. Schools forums can also appoint to a position of vice Chair to provide cover if the Chair is absent or the post vacant.⁷
