

Health and Wellbeing Outcomes Report

Report of the Chief Officer for Communities, Public Health, Environment and Prosperity

Recommendation: It is recommended that the Devon Health and Wellbeing Board note the updated Health and Wellbeing Outcomes Report.

1. Context

This paper and accompanying presentation introduces the updated outcomes report for the Devon Health and Wellbeing Board.

2. Summary of the Health and Wellbeing Outcomes Report, January 2022

2.1 The full Health and Wellbeing Outcomes Report for **January 2022**, along with this paper, is available on the Devon Health and Wellbeing website: www.devonhealthandwellbeing.org.uk/jsna/health-andwellbeing-outcomes-report. The report monitors the four Joint Health and Wellbeing Strategy 2020-25 priorities, and includes breakdowns by local authority, district, and trends over time. These priorities areas include:

- **Create opportunities for all**
- **Healthy safe, strong and sustainable communities**
- **Focus on mental health**
- **Maintain good health for all**

Three indicators have been updated with new data and are as follows:

- **Mortality Rate from Preventable Causes (Under 75), 2020**

The mortality rate from preventable causes for people aged under 75 per 100,000 in Devon is 107.7. This is statistically significantly lower than England rate of 140.5. There is variation in the rate across the districts in Devon. East Devon, Mid Devon, South Hams, Teignbridge and West Devon have statistically lower rates than England and Exeter, North Devon and Torridge have a statistically similar rate to England.

- **Suicide Rate, 2018-20**

The suicide rate in Devon per 100,000 is 11.9. This is statistically worse than the England rate of 10.4. Exeter, Mid Devon and Teignbridge are all significantly statistically worse than the England rate. East Devon, North Devon, South Hams, Torridge and West Devon are all statistically similar to the England rate.

- **Under 18s Conception Rate, 2019**

The under 18s conception rate in Devon per 1,000 is 11.7. This is statistically significantly lower than the England rate of 15.7. The Devon districts are statistically similar to the England rate with the exception of South Hams which is statistically significantly lower.

Please note that many outcome indicators demonstrate health and wellbeing inequalities across smaller areas which may not always be apparent when observing only the Devon figure.

Please refer to the Devon Health and Wellbeing Outcomes report for a full list of indicators.

3. Future developments to the Devon Health and Wellbeing Outcomes Report

3.1 The interactive Outcomes Reporting tool has been developed and can be found on the Devon Health and Wellbeing website [Health and Wellbeing Outcomes Report - Devon Health and Wellbeing](#)

3.2 An easy read version of the Devon Health and Wellbeing Outcomes report is also in development, with delays caused due to the Coronavirus global pandemic.

4. Legal Considerations

There are no specific legal considerations identified at this stage.

5. Risk Management Considerations

Not applicable.

6. Options/Alternatives

Not applicable.

7. Public Health Impact

The Devon Health and Wellbeing Outcomes Report is an important element of the work of the board, drawing together priorities from the Joint Health and Wellbeing Strategy, and evidence from the Joint Strategic Needs Assessment. This report and the related documents have a strong emphasis on public health and other relevant health, social care and wellbeing outcomes. A number of the outcome indicators are also drawn from the Public Health Outcomes Framework. The report also includes a specific focus on health inequalities.
